Group Dance Competition students

With the aim of honoring the dancing sills of the students as part, Laasya - The Dance Club of SIR MVIT organized Group dance competition for 2nd and 4th semester students on 25th June,2023 at main auditorium.

The event was convened by Dr. Chaya T Y , mentor Laasya – Dance club of SIR MVIT, under the guidance of Prof. S K Uma, Chair, Kalakaustubha and Prof. K.V.R Prasad, Chair, Susamskriti.

Dr. Chaya T Y, Assistant Porfessor, department of mathematics and Priyanka Nayak, Assistant Porfessor, department of EEE were the judges of the event.

The program aimed at providing the opportunity to the 1st and 2nd year students to showcase their talents in the fields of music. As cultural events are a great way to build an emotional resilience in students. It increases self- confidence and self - esteem in students. The vivacious dancers set the floor on fire with their energetic performance.

Hod's of Engineering departments, basic sciences, P.G. courses, students were present on this occasion and highly appreciated the effort taken by our students.
The choreography, rhythm, synchronization and presentation of all of the teams was magnificent.

The team WOLFPAC secured 1st prize and the team PIRATES secured 2nd prize amongst the participants
Winners of the competition the team WOLFPAC and PIRATES with Susmskriti Chair Prof. KVR Prasad, Prof Uma S K , Judges Dr. Chaya T .Y. and Mrs. Priyanka Nayak.

WORKSHOP: LIGHTS, CAMERA, ACTION!!

REPORT

The Theatre Club "Rangatranga" organized a workshop titled "Lights, Camera, Action!" The workshop was open to all students and aimed to help participants build their confidence and conquer stage fright. This event was facilitated by accomplished alumni of the college, who shared their expertise and experiences to empower students in the realm of performing arts.

The workshop featured three distinguished speakers, one of whom was Jay Bhatt, a professional actor. Jay Bhatt provided valuable insights into his journey as an actor, both from the perspective of a seasoned performer and as a perpetual learner. He eloquently described how his involvement in theatre had profoundly impacted his life. He shared how theatre had been instrumental in honing his skills, boosting his self-assurance, and aiding him in overcoming obstacles. Through his anecdotes and personal experiences, Jay Bhatt vividly illustrated how theatre had played a pivotal role in shaping his growth as an individual and as an artist. The event also featured two additional speakers, Shivam and Shambhavi, who addressed the audience of around 40 attendees. Both speakers highlighted how their involvement in theatre had significantly contributed to their professional lives in the corporate world.

Shivam and Shambhavi shared their unique stories of how the skills they had acquired through theatre, such as effective communication, teamwork, adaptability, and quick thinking, had seamlessly translated into their careers. They emphasized how the confidence gained from performing on stage had enabled them to excel in high-pressure corporate environments, handle presentations with ease, and build strong interpersonal relationships. Their experiences underscored the undeniable connection between the world of theatre and the skills required to thrive in the corporate realm.

Through their engaging narratives, Shivam and Shambhavi eloquently demonstrated the practical applications of theatre principles beyond the stage, showcasing how the art form had equipped them with invaluable tools for success in their professional lives.

The session concluded promptly at 4:00 PM with a heartfelt vote of thanks delivered by Ms. Praveena. N. She expressed gratitude to the speakers, Jay Bhatt, Shivam, and Shambhavi, for sharing their enriching experiences and insights with the attendees. In a formal gesture of appreciation, Ms. Praveena bid adieu to the speakers by presenting them with momentos as tokens of remembrance. These momentos symbolized the collective appreciation of the audience for the speakers' contributions to the workshop

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY
HUNASAMARANAHALLI, BENGALURU-562157

"Rangtaranga" Theatre Club

With the session coming to an end on a positive note, attendees left with newfound inspiration, a deeper understanding of the interplay between theatre and personal/professional development, and a strengthened resolve to apply the lessons learned from the workshop in their own lives.

ALEKHYA-
THE LITERARY CLUB OF SIR MVIT

ALEKHYA, the official Literary Club of Sir MVIT, was started to contribute to the holistic development of students and the enrichment of the academic and cultural fabric of the institution. The major objectives of the club are to foster an appreciation for literature, nurture creative talents, encourage self-expression, enhance critical thinking, and create a supportive and intellectually stimulating community.

ACTIVITIES

On August 01, 2023, Tuesday, Alekhya organized a quizzing cum speaking event called "DEB-QUIZ" that brought together students from various branches to test their knowledge, critical thinking, and teamwork skills. The event aimed to foster a competitive yet friendly atmosphere where students could showcase their knowledge, speaking prowess and enjoy a fun-filled afternoon of learning and camaraderie.

The event was conducted in the Marconi Seminar Hall from 1:30 PM onwards. A total of 84 students participated in the event. The entire event was divided into three rounds each with it's own set of questions and challenges.

ROUNDS:
1. PRELIMS:
   The 1st round was the prelims- It was a written round. Each participant was given a sheet of paper to write answers for the quiz on. The quiz master displayed the questions to the whole of audience through a presentation. The round consisted of a total of 15 questions. 18 participants with the highest scores were selected for the finals.

2. SPEAKING PICTURES:
   The 2nd round was a speaking round. Participants were shown 3 images one after the other and were given a set time to spontaneously speak about them. A total of 6 students, based on speech style, creativity in discourse, and duration of speech, were selected for the final round.

3. FINALS:
   The final round was a team quiz event. Each of the selected 24 finalists was grouped into 8 teams of 3 members. The quiz master displayed a total of 12 questions for the round on a presentation and teams were given turns to answer. The winners were decided based on the points accumulated.

Audience interaction was one of the key features of the event. During preparation before the final round, the audience were given set of topics. Each person was told to pick a topic of interest, prepare and present a speech on the same. The best speakers were awarded with goodies.

The participants, throughout the entire event showed a high level of enthusiasm as well as engagement.

After three rigorous rounds, the top three teams emerged victorious. The winning teams was awarded the certificate by Ms. Sai Shreeya Anwesha, Faculty Mentor, Alekhya.

WINNERS:

POSITION	NAME	YEAR	BRANCH
1st	Vittala Chaitanya NM	1st	IOT
	Shashidhar Hegde	1st	ISE
	Dhriti HH	1st	CSE
2nd	George Joseph	1st	BT
	Alok Kumar Gupta	1st	ECE
	Aniket Kumar Singh	1st	CSE
3rd	S Sourish	1st	BT
	Advitiya Pandey	1st	ECE
	Shashank Pandey	1st	IOT

Overall, DEB-QUIZ was a resounding success. It not only proved an intellectual challenge for the students participating but at the same time promoted health competition and collaboration among the participants. Such events play a crucial role in fostering a sense of community in the college.
"HONGIRANA" The Kannada Cultural club

REPORT

The Kannada cultural club "HONGIRANA" organized a Kannada "ANTHYAKSHARI" competition on 1st August 2023. The program was open to students of all the streams. Students from various branches participated in this competition. This program was started by lightening the lamp with the invocation song and it was also included with certain entertainment programs such as speech on the importance of Kannada, singing, dance and drama.

Total 44 students had registered for participation and there was a preliminary round conducted in CS seminar hall at 12:30pm for the final selections of the participants and 16 (2 in a group) groups were finalized for the participation. The session started at 1:30pm by addressing the guest and the session concluded at 4:00 PM

Mr. Ramkumr Assistant Professor, Department of Mathematics and
Mrs Vaani Harave Assistant Professor Department of MCA judged the event.

The names of the winners were announced on spot.
The following students are the prize winners.
I Prize : Ms. Aishwarya Shiragumpi ,1MV21EE004 and Ms.Ramya T.S 1MV21EC078
II Prize: Ms Bhuvana T.S, 1MV22EE404 and Bhuvaneshwari M 1MV2EE406
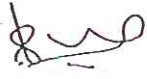

The first prize is 1000 Rs and the second prize is 800 Rs

The event session was filled with lots of fun and created a communicative environment among the students.
Overall I thank The Management, Sri KET, The Principal, Sir MVIT, for the support extended in bringing out this program into a great success.
One day HONGIRANA (KANNADA ANTHYAKSHARI) was conducted successfully.

Objectives -

1. Instill passion and connect the people intimately with nature to work towards a more Sustainable, green and spreading better environmental educational practices

2. Addressing and bringing out ideas and resolving steps towards environmental issues and climate change

3. Creating awareness about India's rich biodiversity, wildlife and the importance of their conservation

4. Plantation and cleanup drives within and outside campus for a cleaner and greener neighborhood.

5. Bringing together and expanding eco community through campaigns, awareness programs, seminars and field visits.

6. Educating public about organic farming and composting practices.

Report on Quiz Competition – "Explore your Environment" on 25th July 2023

The Eco Club – Nisarga of Sir MVIT, of Susamskriti conducted a Quiz Competition – "Explore your Environment" on 25th July 2023. About 35 students from the 2nd and 4th Semester BE across different branches registered for the event. 15 students participated in this competition. This was a written quiz competition with 50 questions and the duration was 1 hour. The event started with a briefing about the rules of the competition by Dr. Sudevi Basu, Faculty Mentor, NISARGA – Eco Club, Sir MVIT. The participants were enthusiastic and they learnt from the various aspects of environment.

Report on Campus Clean-up Drive – Swachh MVIT Abhiyan on 17th Feb 2023

The Eco Club – Nisarga of Sir MVIT, of Susamskriti in association with NSS – National Service Scheme – Sir MVIT Chapter and Institution's Innovation Council, conducted a Campus Clean-up Drive – Swachh MVIT Abhiyan on 17th Feb 2023. About 100 students involved in the clean-up drive were from the 1st and 3rd Semester BE Biotechnology and volunteers of NSS. The students were briefed about the importance of clean-up drive for keeping the campus clean and tidy by the mentors of the Eco Club and NSS (Dr. Sudevi Basu and Mr. Byregowda respectively) and the member of IIC (Dr. K. V. Rashmi). The students were given hand gloves and biodegradable bags to collect trash from every nook and corner of the campus. The students enthusiastically collected almost 25 large bags of trash containing non-degradable wastes like chips packet, pet bottles, soft drink bottles, plastic carry bags, chocolate wrappers, paper cups with wax and plastic liner etc. After the event, the students were provided with fruit juice and were advised to be the clean-up ambassadors to spread the message to their friends to keep the campus clean and green.

Report on Interactive Talk on "Planet Ocean- Tides are Changing", commemorating World Oceans Day on 8th June 2023

The Eco Club – Nisarga of Sir MVIT, of Susamskriti conducted an interactive talk on "Planet Ocean- Tides are Changing", commemorating World Oceans Day on 8th June 2023. About 38 students from the 4th Semester BE Biotechnology and a lab instructor of BT Department participated in the event. The event started with a brief introduction on the significance of the day by Ms. Sneha, 4th Semester, BE Biotechnology. This was followed by the introduction of the resource person **Sri D. R. Kumaraswamy,** Retd. Chief Environmental Officer (KSPCB) and Director, Prakruthi Institute of Environmental Studies, Bengaluru, by Dr. Sudevi Basu, Faculty Mentor, NISARGA – Eco Club, Sir MVIT.

The talk started off with various common problems facing the environment in an interactive manner and students participated in the discussions. Importance of oceans in water cycle and water balance, absorbing carbon-dioxide from atmosphere, the tides as renewable energy sources were discussed by the resource person. Further, the impact of global warming on oceans and tides, various changes in ocean current and tides due to pollution was dealt with. Basically, the issues related to the protection of oceans and its implications on the overall society were brought out meticulously by the resource person. The event ended with a pledge given to all the participants by the resource person to take care of the environment individually and in a collective manner and thanks giving by Dr. Sudevi Basu.

Finally, the resource person and participants were treated with fruit juice.

BLOOD DONATION
DRIVE

21st July - 2023
College
Auditorium

9:30 AM
Onwards

Report on Blood Donation Drive – July 21, 2023

Organizers: SPANDANA – Social Outreach Club of Sir MVIT, in association with NSS, Sir MVIT & Youth Red Cross Wing, Sir MVIT

Coordinator: Lions Club

Participating Blood Banks:

1. Sanjay Gandhi Institute of Trauma and Orthopaedics, Bengaluru
2. Indira Gandhi Institute of Child Health, Bengaluru
3. NIMANS, Bengaluru

Total Units of Blood Collected: 190 units

Number of Volunteers:

Faculty Coordinators: Dr. Rashmi K. V. and Mr. Byregowda B.K.

Introduction: The Blood Donation Drive was a remarkable event organized by SPANDANA – the Social Outreach Club of Sir MVIT, in collaboration with NSS Sir MVIT & Youth Red Cross Wing, Sir MVIT. The drive was aimed at promoting voluntary blood donation and creating awareness about the significance of donating blood to save lives. The event took place on 21st July 2023 at the Sir MVIT College Auditorium and witnessed enthusiastic participation from students, faculty, and staff. The event was inaugurated by lighting the ceremonial lamb by Principal Prof. Rakesh S. G. alongwith other attendees. In an exemplary gesture, Principal Prof. Rakesh S. G. took the lead and became the first donor of the day. By doing so, he set a remarkable precedent for all participants, showcasing his personal commitment to the cause and leading by example.

Event Details: The Blood Donation Drive commenced at 10:00 AM and continued until 3:00 PM. The Lions Club, renowned for its philanthropic efforts, extended its coordination to ensure the smooth execution of the event. Volunteers from SPANDANA, NSS, and the Youth Red Cross Wing were actively involved in various aspects of the drive, including registration, donor counseling, and post-donation care.

**Participation and Donations:** The response from the college community was overwhelming. Numerous students, faculty, and non-teaching staff members actively took part in the blood donation process. To ensure a smooth and efficient process, donors were scheduled based on time slots, and adequate arrangements were made to avoid crowding.

The participation of students was highly commendable, as many of them voluntarily contributed to this noble cause, showcasing their concern for society's well-being. Additionally, the drive was open to the public, and several local residents also came forward to donate blood, further bolstering the success of the event.

Awareness and Impact: Beyond the blood donation itself, the event also served as a platform to raise awareness about the importance of regular blood donations and dispel common misconceptions related to the process. Informational sessions were conducted throughout the day to educate donors and visitors about the life-saving impact of blood donation and how it plays a crucial role in emergency medical treatments, surgeries, and treatments for various medical conditions.

Conclusion: The Blood Donation Drive organized by SPANDANA in association with the NSS & NVH & Youth Red Cross Wing, and coordinated by Lions Club, was an overall success. With the generous participation of students, faculty, staff, and the public, a substantial amount of blood was collected, which will undoubtedly save many lives in times of medical emergencies.

Such initiatives play a pivotal role in fostering a sense of social responsibility among individuals, especially the youth, and create a positive impact on society. The event not only reinforced the importance of blood donation but also showcased the collective power of compassion and empathy.

HUNASAMARANAHALLI, VIA: YELAHANKA, BANGALORE – 562 157
Commemoration of National Science Day
26th February 2022- Community Outreach Program
### Report

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir Chandrashekhara Venkata Raman on 28 February 1928. Department of Biotechnology, Sir MVIT commemorated this event by organizing exhibition of scientific models and demonstration of biotechnology experiments at the different labs of the department. These exhibitions were witnessed by 25 high school students from Sri Kodandarama Highschool, Mittur and 33 PU students from Presidency School, Kasturinagar. The event was coordinated by 1st and 3rd semester BE Biotechnology students. Preparation of all the scientific models at the different labs and demonstration of experiments was done by 1st and 3rd semester BE Biotechnology students towards AICTE-VTU activity points.
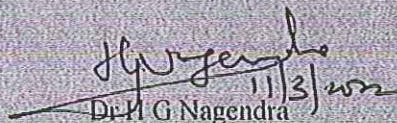

The guests of honour the event were Prof Jagadish Mittur, Director-Operations, Rico Winery and Mrs Sujaya Jagadish, Psychologist and Philanthropist. Prof. H G Nagendra, HOD, Department of Biotechnology welcomed the guests, school students and teachers. Prof Jagadish Mittur gave a detailed speech on inclusion of rural community students by urban students towards their better learning. After the inaugural session, all the students were divided into subgroups of 10 students each for lab tours. Students visited Bioinformatics, Microbiology, Genetic Engineering, Biochemistry, Fermentation Technology, Unit operations and Process Control labs. All the labs demonstrated some of the exciting scientific models and experiments to students. Every laboratory demonstrated many experiments like Agar art, Effect of carbonated drink, Milk Quality test, DNA isolation, Plant Tissue Culture, Heat exchanger, Filtration, Protein structures etc..to students to kindle their scientific spirit. Many biological working models like Biogas, Hydroponics-Aquaponics, Bacterial Cell, Drug Delivery, Thermal Power, Signal Transduction, Quantum dots etc. were also demonstrated by our students. Beyond this school students have also visited Aspartika Biotech Pvt. Ltd. Labs. After the visit of every lab feedback poll was collected from all the students. After the lunch break an interactive session for rural school students with urban school students was organized to explore contacts among themselves for better learning experience.

Prof H G Nagendra, Head, Dept. of Biotechnology made concluding remarks on the event and distributed the saplings to the school teachers as a token of appreciation. Few of the most interactive students High school and PU college were awarded with prizes. School teachers also shared their feedback of the event and highly appreciated the efforts by the students and staff towards explaining all the science themes to the students and they also mentioned the whole exercise was very useful to those school students.

Overall this whole event has helped students of BE-Biotechnology towards programs outcomes on engineers concerns towards society (PO6), their ability to work in teams and as individuals (PO9) and also their communication skills in teaching and convincing the students on the concepts (PO10). All the soft skills learnt through such societal activities are part of life-long learning process (PO12).We are extremely thankful to AICTE-SPICES, Sri KET and Sir MVIT for the support towards the successful conduction of this event.

10	Dr. Megna K M	8943811395	Intern, Dental Science	Krishnadevaraya College of Dental Sciences & Hospital

"Medical camp" 2022 conducted on the 18th December was organized by the joint association of Abikalpana Trust and Spandana, the social outreach forum of Sir MVIT.

We had invited 3 General physicians and 7 dentists. Every kid was examined by a pair of dentists and a General physician each and necessary medication/ further treatments were prescribed. Transport facilities for

the kids were provided by the college transport department. Lunch for the kids and volunteers provided by SMVIT and KCDS Men's hostel.

- A total of 66 kids were looked into

- Kids were picked up from their respective homes and brought to new auditorium by 8.30 am by the volunteers in charge

- Doctors arrived by 10am and we started the medical camp soon after that

- Doctors treated the kids in 2 shifts with a refreshment break in between

- While a set of kids were treated by the doctors, the rest of kids of them were engaged in different activities conducted by volunteers.

- Doctors were done treating all the 66 kids by 2.30pm.

- Both the kids and doctors were escorted to the mess by the volunteers for lunch.

- After the ids finished having lunch they were distributed with fruits and stationaries sponsored by Dr. Shreekanth, 4th year ECE and few volunteers from Christ University respectively.

- Kids were dropped back to their respective homes safely by the volunteers' in-charge.

- Volunteers and doctors were returned back to the auditorium for the vote of thanks and post event meeting.

- Doctors addressed the volunteers and shared their experience and suggestions.

- Faculty mentor of Spandana, Dr. Rashmi KV proceeded with the vote of thanks.

- Doctors were distributed with certificate of appreciation, a hamper and framed group photo each as token of gratitude.

- After the doctors left volunteers wrapped up the medical camp with a post event meeting.

Further actions to be taken:

- Parents of the kids that need immediate frther treatment to be informed about the same by the volunteers.

- Necessary arrangements for distribution of deworming and multivitamin tablets to required kids to be made.

- Nutritional counselling to the parents of the kids to be carried out by the volunteers.

- Kids to be educated about hygiene, oral health and mental health by the volunteers.

Dr Rashmi K V

To,
THE PRINCIPAL
Sir M Visvesvaraya Institute of Technology
Bangalore – 562 157

Respected Sir,

(THROUGH PROPER CHANNEL)

Sub: Request to grant permission to conduct "Biology Experiments and Models Exhibition" a as community outreach program on 24th and 27th March 2021- reg.

We would like to inform your kindself that, Department of Biotechnology, Sir M Visvesvaraya Institute of Technology is planning to organize a community outreach program on 22nd and 27th March 2021. This exhibition is planned for rural government high school students and aspiring PUC students to kindle their interest in Biology and Biotechnology.

In view COVID19 SOPs we have split the event for two days i.e., on 24th March 2021 for school students and 27th March 2021 for PUC students. There will be biology models and experiments demonstrated to students at the various laboratories of our department. Around 30 high school students and 40 PUC students have expressed their willingness to participate on those respective days.

This event will be a part of AICTE-VTU activity points as well as execution of this outreach program helps our BE Biotechnology students to attain POs 6, 7,9,10 and 12.

This event is planned under the department forum activity and money is already sanctioned from Sri KET (Order copy enclosed).

In this regard we request your kindself to grant us permission to conduct this outreach event on these dates i.e., 24th and 27th March 2021 and oblige.

Thanking you,

Forwarded for favourable consideration

22/3/2021

Biology Experiments and Models exhibition – Community Outreach Program

24/03/2021

Report

Department of Biotechnology, Sir MVIT organized an outreach program on **Biology Experiments and Models exhibition for rural school students** on 24th March 2021. A total of 33 students and 2 teachers from Govt. High School, Bettalsur took active participation in the event. The event was coordinated by 6th and 8th semester BE Biotechnology students. Preparation of all the scientific models at the different labs and demonstration of experiments was done by 6th semester BE Biotechnology students towards AICTE-VTU activity points.

School students were divided into subgroups of 10 students each for lab tours. Students visited Bioinformatics, Microbiology, Genetic Engineering, Biochemistry, Immunotechnology, Unit operations and Process Control labs. Bioinformatics lab showed some exciting videos on communicable diseases and also the novel COVID 9 and its infection mechanism. Microbiology lab demonstrated experiments of motility, bacterial culture, gut microbiome, antibiotic sensitivity. Genetic Engineering lab showed DNA isolation and Cell division experiments, a model of recombinant DNA technology was explained and also the project on nutritional formulation was displayed. Biochemistry lab showed milk and food adulteration tests. Immunology lab demonstrated blood typing test, thin layer chromatography and wine fermentation process. All the models and experiments were demonstrated by 6th and 8th Semester students of BE-Biotechnology. Over-all coordination was done by 8th semester students and the 6th semester students prepared the scientific models and experiments demonstration.
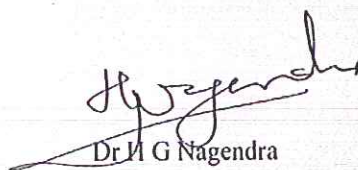

After the visit of every lab 2-3 questions based quiz and feedback was collected from all the students. After the lab visits all the students have participated in few science games as a recreation activity.

Prof H G Nagendra, Head, Dept. of Biotechnology made concluding remarks on the event and distributed the saplings to the school teachers as a token of appreciation. School teachers also shared their feedback of the event and highly appreciated the efforts by the students and staff towards explaining all the science themes to the students and they also mentioned the whole exercise was very useful to those school students.

Overall this whole event has helped students of BE-Biotechnology towards programs outcomes on engineers concerns towards society (PO6), their ability to work in teams and as individuals (PO9) and also their communication skills in teaching and convincing the students on the concepts (PO10). All the soft skills learnt through such societal activities are part of life-long learning process (PO12).We are extremely thankful to Sri KET and Sir MVIT for the support towards the successful conduction of this event.

Outreach Program on "Awareness on Biotechnology - Experiments & Models exhibition" 27/03/2021

Report

Department of Biotechnology, Sir MVIT organized an outreach program on **Awareness on Biotechnology - Experiments & Models exhibition** for PUC students on 27th March 2021. A total of 24 students, 11 parents and 1 biology teacher Presidency School, Kasthurinagar took active participation in the event. The event was coordinated by 6th and 8th semester BE Biotechnology students. Preparation of all the scientific models at the different labs and demonstration of experiments was done by 6th semester BE Biotechnology students towards AICTE-VTU activity points.

A brief orientation presentation was made by 6th and 8th semester students highlighting the scope and prospects of Biotechnology. Followed by this Prof H G Nagendra, Head, Dept. of Biotechnology answered the queries by students and parents.

PUC students were divided into subgroups of 10 students each for lab tours. Even parents were interested to visit the labs as group. All the students and parents visited Bioinformatics, Microbiology, Genetic Engineering, Biochemistry, Immunotechnology, Unit operations and Process Control labs. Bioinformatics lab showed some exciting videos on communicable diseases and also the novel COVID 9 and its infection mechanism. Microbiology lab demonstrated experiments of motility, bacterial culture, gut microbiome, antibiotic sensitivity. Genetic Engineering lab showed DNA isolation and Cell division experiments, a model of recombinant DNA technology was explained and also the project on nutritional formulation was displayed. Biochemistry lab showed milk and food adulteration tests. Immunology lab demonstrated blood typing test, thin layer chromatography and wine fermentation process. All the models and experiments were demonstrated by 6th and 8th Semester students of BE-Biotechnology. Over-all coordination was done by 8th semester students and the 6th semester students prepared the scientific models and experiments demonstration.

After the visit of every lab 3 to 4 questions based quiz and feedback was collected from all the students. From parents overall feedback was collected.

Prof H G Nagendra, Head, Dept. of Biotechnology made concluding remarks on the event and distributed the saplings to the parents and teachers as a token of appreciation. Ms Sudha Murthy, Head of Biology Department, Presidency School shared her feedback of the event and highly appreciated the efforts by the students and staff towards explaining all the science themes to the students and they also mentioned the whole exercise was very useful to those PUC students.

Overall this whole event has helped students of BE-Biotechnology towards programs outcomes on engineers concerns towards society (PO6), their ability to work in teams and as individuals (PO9) and also their communication skills in teaching and convincing the students on the concepts (PO10). All the soft skills learnt through such societal activities are part of life-long learning process (PO12). We are extremely thankful to Sri KET and Sir MVIT for the support towards the successful conduction of this event.

Respected Sir,

Subject: Thanking for involving our students for "Biology Experiments and Models Exhibition" on 24/03/2021

We are extremely grateful to Department of Biotechnology, Sir M Visvesvarya Institute of Technology for having invited our teachers and 8th standard students for the "Biology Experiments and Models Exhibition" at your various labs on 24/03/2021. All the experiments demonstrated and scientific models displayed were greatly appreciated by our students and staff. We express our heartfelt thanks to the entire faculty and BE students who involved in making this event very successful.

We look forward to have many more such student helpful activities in association with you.

Thanking you

Report on one day Outreach program on "Value addition in Sericulture farming"
4/3/2021

Department of Biotechnology, Sir MVIT has organized a one day Outreach program on "Value addition in Sericulture farming" on 4/3/2021 in association with Aspartika Biotech Pvt.Ltd and Sericulture Department, Bengaluru Rural Division. There were 25 field officers and farmers participated in the event. The 3rd semester BE Biotechnology students were also participated in this outreach program as a part of their AICTE-VTU activity.

The objectives of this program were:

➢ To create awareness to sericulture farmers and sericulture department field officers on the effective utilization of wastes of sericulture into value added products to gain additional income.

➢ To expose farmers, field officers and students to various products and processes already developed by Aspartika Biotech Pvt. Ltd., a Sir MVIT Incubatee company.

➢ To establish connect between students and farmers to understand the real world problems in the Sericulture farming.

The Chief guests of the event were,

1. Dr Prabhakar, Deputy Director of Sericulture, Bangalore Rural Zillapanchayath, Beerasandra
2. Dr K P Chinnaswamy, Former Deputy Registrar, UAS, Bengaluru
3. Shri Mallur Shivanna, Farmers Leader

This event was presided by Dr V R Manjunath, Principal, Sir MVIT. Dr H G Nagendra, HOD, Department of Biotechnology, Sir MVIT welcomed the gathering. Dr V R Manjunath, Principal, Sir MVIT made presidential remarks by highlighting the importance of sustainable agricultural practices. Dr Prabhakar, Deputy Director of Sericulture, Bangalore Rural Zillapanchayath explained the unawareness of the sericulture farmers on the effective utilization of sericulture industry wastes and he also mentioned both farmers and officers of sericulture department are curious to know about the products from effective utilization of sericulture industry wastes. Mr Shrinivas B V, Director, Aspartika Biotech.Pvt. Ltd., explained in detail the various wastes generated by the sericulture industry like pupae, worm excreta, mulberry leaves. He explained from waste pupae omega-3-fatty acids and proteins can be extracted. Omega-3-fatty acids are used to improve cardiovascular health and other health benefits. The proteins extracted from pupae can be used in poultry or aqua feeds. Mulberry leaves can be used to prepare tea. From the excreta of the silkworm GABA and chlorophyll can be extracted. Beyond these, the silkworm pupae can also be used to grow the Cordyceps mushroom. Cordyceps is an expensive mushroom because of its wide health benefits. He also explained the various technologies available to make develop novel products from sericulture wastes.

Dr K P Chinnaswamy, Former Deputy Registrar, UAS, Bengaluru, in his remarks appreciated the efforts of Aspartika Biotech.Pvt. Ltd., in coming up these products from sericulture wastes. He mentioned more awareness has to be created in the farming community to adopt these products in the daily life.

Shri Mallur Shivanna, Farmers Leader in his remarks highlighted these technologies can really improve the income of farmers if practiced in scientific way.

Students, Farmers and sericulture field officers discussed with the technical team of Aspartika Biotech.Pvt. Ltd., on their doubts about the technologies introduced to them.

At the end all the participants were presented with a sapling as a token of gratitude. Lunch was served at the Men's hostel mess to all of them.

This event has helped the students in the following aspects of program outcomes:

- Realizing the roles of a biotechnology engineer in farming society (PO6).
- Effective utilization of sericulture wastes in reducing the environmental pollution and increasing the income towards sustainable agricultural practices (PO7).
- Function individually and in a team to develop products or process (PO9).
- Effectively communicate to farmers on effective utilization of sericulture wastes (PO10).
- Life-long learning (PO12)

On a whole the event was very fruitful in creating awareness among the community on the effective utilization of sericulture wastes.

CORDIALLY INVITES ONE & ALL

TO

"National Science Day Celebrations"

Community Outreach Program

TIME	:	10 to 1 PM
DATE	:	28th February 2020
VENUE	:	BT Department

Schedule

9.45 AM	Arrival of Batch 1 school students
10 – 10.30 AM	Address by Dr Manjunath Ramarao, BBRC
10.30 – 11.30 AM	Lab tours
11.30 AM-12noon	Drop of Batch I and Arrival of Batch 2 students
12noon – 1PM	Lab tours
1 – 2PM	Refreshments for students and drop back to school

Target Audience

9th Standard students of Govt. High School, Bettahalasur

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY
HUNASAMARANAHALLI, VIA: YELAHANKA, BANGALORE – 562 157
DEPARTMENT OF BIOTECHNOLOGY

To,
THE PRINCIPAL
Sir M Visvesvaraya Institute of Technology
Bangalore – 562 157

Respected Sir,
                    (THROUGH PROPER CHANNEL)

Sub: Request to grant permission to conduct National Science Day celebration as community outreach program on 28th February 2020- reg.

We would like to inform your kindself that, Department of Biotechnology, Sir M Visvesvaraya Institute of Technology has organized Biology Exhibition to commemorate the National Science Day on 28th February 2020. This exhibition is planned for high school students to kindle their interest in Biology. There will be biology models and experiments demonstrated to students at the various laboratories of our department. Around 100 high school students from Bettahalsur are invited for the program.

Execution of this outreach program helps our BE Biotechnology students to attain POs 6, 9 and 10.

This event is planned under the department forum activity and money is sanctioned from Sri KET (Order copy enclosed). The event will between 10AM to 1PM followed by lunch.

In this regard we request your kindself to grant permission to conduct this outreach event and oblige.

Thanking you,
                                                        Yours Sincerely,

Forwarded for favourable consideration and needful permission

CIRCULAR   Date: 26.02.2020

This is to bring it to the notice of all of you that, Department is organizing an outreach program to commemorate The National Science Day on 28th February 2020. Around 110 students of 9th standard from the Govt. High School, Bettalsuru will be visiting the department on this day. In this regard the forenoon time table for this day may be disturbed. All the faculty and staff are hereby requested to extend due support and accept the responsibilities associated with event to make the event successful. We solicit your kind cooperation in this regard and oblige.

Event Schedule

9.45 AM	Arrival of Batch 1 school students
10 – 10.30 AM	Address by Dr Manjunath Ramarao, BBRC
10.30 – 11.30 AM	Lab tours
11.30 AM-12noon	Drop of Batch 1 and Arrival of Batch 2 students
12noon – 1PM	Lab tours
1PM	Drop of Batch 2 to back school

Faculty responsibilities and Lists of Labs for Students Visit

Name of the Lab	Activity	Faculty In-charge
Microbiology Lab	Experiments/Demonstration	Dr PN
Genetic Engineering Lab	Experiments/Demonstration	Dr KVR
Biochemistry Lab	Experiments/Demonstration	Dr CR
Fermentation Technology Lab	Experiments/Demonstration	Mr PH
Unit Operations Lab	Experiments/Demonstration	Mr MR
Tutorial Room	Models exhibition	Mrs AN
Coordination of students groups to various labs within the time frame		Dr SB and Mrs RH

NOTE: Each Lab is requested to take maximum 10 mins per batch for explanation

PS: Faculty in-charges to ensure that all students exhibiting models/experiments must be ready by 9AM on 28/02/2020 at their respective venues.

National Science Day Celebration 28th February 2020 – Community Outreach Program
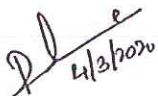

Report

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist Sir Chandrashekhara Venkata Raman on 28 February 1928. Department of Biotechnology, Sir MVIT commemorated this event by inviting 140 High school students from Govt. High School, Bettalsur.
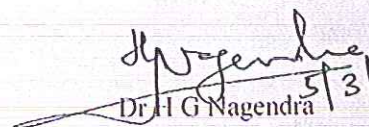

All the students were divided into subgroups of 10 students each for lab tours. Students visited Bioinformatics, Microbiology, Genetic Engineering, Biochemistry, Immunotechnology, Unit operations and Process Control labs. Bioinformatics lab showed some exciting videos on communicable diseases and also the novel COVID19 and its infection mechanism. Microbiology lab demonstrated experiments of motility, bacterial culture, effect of carbonated drinks on teeth and this lab also explained models on Parkinson's disease, Respiratory system. Kidney functions. Genetic Engineering lab showed DNA isolation and Cell division experiments, a model of recombinant DNA technology was explained and also the project on nutritional formulation was displayed. Biochemistry lab showed milk adulteration test and ADME model. Immunology lab demonstrated blood typing test and fermentation process. Unit Operation lab demonstrated liquid-liquid extraction, distillation, leaf filter experiments and the project on reclamation of Pomegranate industry waste into useful products. The bioprocess automation lab exhibited a model on Biogas production. All the models and experiments were demonstrated by 4th, 6th and 8th Semester students of BE-Biotechnology. The overall co-ordination of the event was done by the 4th students of BE-Biotechnology.

Dr Manjunth Ramarao, from Bristol-Meyers Squibb addressed the school students and highlighted the importance of pursuing the passion life. He explained the achievements of Dr Y Subbarao as an example of chasing the dreams in life and contributing to science irrespective of challenges. Prof H G Nagendra, Head, Dept. of Biotechnology distributed the mementoes to the school teachers. The Head Mistress of the School Mrs Chandrakala gave her feedback on the event. She highly appreciated the efforts by the students and staff towards explaining all the science themes to the students and she also mentioned the whole exercise was very useful to those school students.
Overall this whole event has helped students of BE-Biotechnology towards programs outcomes on engineers concerns towards society (PO6), their ability to work in teams and asl individuals (PO9) and also their communication skills in teaching and convincing the students on the concepts. We are extremely thankful to Sri KET and Sir MVIT for the support towards the successful conduction of National Science Day 2020.

Respected Sir,

Subject: Thanking for involving our students for National Science Day 2020 celebrations

We are extremely grateful to Department of Biotechnology, Sir M Visvesvarya Institute of Technology for having invited our teachers and 8th and 9th standard students for the science exhibition at your various labs in commemoration of National Science Day celebrations on 28th February 2020. All the experiments demonstrated and scientific models displayed were greatly appreciated by our students and staff. We express our heartfelt thanks to the entire faculty and BE students who involved in making this event very successful.

We look forward to have many more such student helpful activities in association with you.

Thanking you

Yours faithfully

## DEPARTMENT OF BIOTECHNOLOGY

Report on one day "Awareness program on Rabies control and management" conducted on 5th April 2019 to commemorate World Health Day 7th April 2019
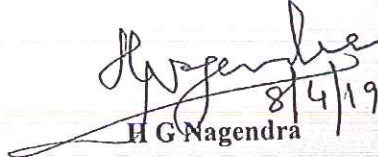

Department of Biotechnology, Sir MVIT has organized a one day "Awareness program on Rabies control and management" on 5th April 2019 to commemorate World Health Day 7th April 2019 in association with Dr. Shampur Madhusudana Trust & Foundation for Neglected Disease Research (FNDR). Dr. Shampur Madhusudana Trust which is founded by Girija Madhusudana in memory of her husband Late Dr. Shampur Madhusudana who was a renowned scientist of international repute in Rabies research. This trust is actively involved in creating awareness on Rabies control and management with a vision of Rabies free India. Foundation for Neglected Disease Research (FNDR) is a research body housed at Sir MVIT incubation centre is actively involved in neglected disease research like Rabies.

The first half of the event was an outreach activity to the nearby Sir MV Government Primary School at Hunsamaranahalli. Around 200 school kids belonging to 4th to 8th standard participated in the event. Dr Shridhar Narayana, CEO, FNDR welcomed everyone and introduced the guests. Dr Chandrashekhar from Dr. Shampur Madhusudana Trust gave introduction of the event and showed a video on the implications of Rabies to the students. Dr Someshwara Narappa, a medical expert and also the popular quiz master of DD Chandana's quiz show "thatt antha heli" was also a guest in the event and he explained the students about every details regarding the prevention and control of the Rabies trough animal bites or contact. All the students who asked genuine questions and answered doctor's questions were presented with a sapling as a token of appreciation. After Dr Someshwara's session a pledge as taken by all the participants on eradicating Rabies from our community. The event organizers thanked the school for giving the opportunity to communicate to the students.

The second half of the event as conducted at the Sir MVIT CS seminar hall for all the interested students and staff. All the BE Biotechnology students and staff participated in the post lunch event. Before the event the guests had a short meeting with the Principal Sir MVIT Dr V R Manjunath and had discussions on the objectives of the event. Principal wished the organizers the success of the event. Dr H G Nagendra, Head, Dept. of BT, Sir MVIT welcomed the gathering and introduced the guests. Dr Chandrashekhar from Dr. Shampur Madhusudana Trust gave introduction of the event and showed a video on the implications of Rabies to the students. Dr Someshwara Narappa gave a detailed presentation on the Rabies infection and its implications. It was truly a brainstorming session and it kindled everyone's interest to know more about. Many students and faculties asked lot of questions to medical expert to solve the myths and to know the facts related to Rabies. Dr Shandil, Director, FNDR gave vote of thanks. Dr Parvinder Kaur from FNDR and Mrs Rashmi KV from Sir MVIT presented mementoes to all the guests.
On a whole the event was very fruitful in creating awareness among the community on the Rabies control and management.

Program on RABIES AWARENESS (Friday, 5th April 2019)
(To Commemorate World Health Day)
Program by: Dr. Shampur Madhusudana Trust & Foundation for Neglected Disease Research (FNDR)
Coordination by: Sir M. Visvesvaraya Institute of Technology (MVIT) College

S.No.	Topic	By	Duration
Visit to Hunasamaranahalli School			
1	Introductions	Dr. Shridhar Narayanan, (CEO, FNDR)	11.30am-11.45am
2	Rabies Awareness: • A dialogue on Rabies awareness (Kannada). • Videos & QA Target audience: 3rd to 8th Standard students (Total ~350 Students+ Teachers)	Dr. Someswara Narappa (Medical Expert) & Dr. Chandrashekar, (Dr. Madhusudana Trust)	12.00pm-1.00pm
Visit to Sir MVIT College			
Lunch (1.15 pm – 2.00 pm)			
3	Introductions	Dr. Parvinder Kaur (Principal Scientist, FNDR)	2.00pm-2.15pm
4	Rabies Awareness: • A dialogue on Rabies awareness (English) • Videos & QA Target audience: Sir MVIT College (Total ~150-200 Students + Staff)	Dr. Someswara Narappa (Medical Expert) & Dr. Chandrashekar, (Dr. Madhusudana Trust)	2.15pm-3.15pm
5	Closing Remarks	Dr. R.K. Shandil (Director, FNDR)	3.15pm-3.45pm

Logistics:

Requirement	By	Notes
Projector for School	MVIT	School to provide electricity and plug point for projector; MVIT to set up Projector
Screen (7 ft x 5 ft) for School	FNDR	School to provide space for tripod screen
Public addressing system for School	School	MVIT and school to provide AV system and MVIT to be in charge of setting up AV system
Laptop	Dr. Madhusudana Trust	Dr. Chandrashekar
Videos	Dr. Madhusudana Trust	Dr. Chandrashekar to bring videos, presentations, etc.
Banner, Poster	Dr. Madhusudana Trust	MVIT and School to arrange softboard for posters or an appropriate place to stick the poster and place the banner.
Gift for school children	FNDR	Pens or similar
Refreshment to college students	FNDR	Biscuits, Tea, Coffee etc.

Respected Sir,

Sub: Request to grant permission to use EC department's LCD projector on 5th April 2019-reg.

For the **"Awareness program on Rabies"** on **5th April 2019,** we request your kind self to grant permission to use EC department's mobile LCD projector. We are conducting this event as an outreach program also to the school children of Hunasamaranahalli Govt. School.

There are some video and PPT contents to be shown to the school kids hence we need a good mobile LCD projector. In this regard, we request your kind self to grant permission take this LCD projector to school and use. We assure you, we will handle LCD projector carefully and return it to the EC department safely. Kindly permit and oblige

Thanking you,

Sincerely Yours

Report on NATIONAL EDUCATIONAL POLICY – 2020
(Organized by our college internal committee – Sambhrama - Club of Susamskriti)

Ref No:VTU/PS/2022-23/4843.dt.7dec2022

SUB: Report on events conducted at college level about hope and implementation of NEP-2020.

With reference to the above subject Sir M Visvesvaraya Institute of Technology, Bengaluru conducted the following events:
- Pick and Speak Competition
- Essay Competition

on 16th December, 2022 as per your circular dated 07th December, 2022.

The aim of this event was to spread awareness about the National Educational Policy to the youth of our college.

The events were organized collaboratively by the Cultural Forum of SMVIT, Sambhrama – Club of Susamskriti. This event was judged by Dr. Prashanth S.H., Dept. of Mechanical Engineering, Prof. Chandrashekhar B., dept of Mechanical Engineering, Prof Rajeshwari, dept of ECE.

The event competition began at 10 am in the Science Seminar hall which was lead by Dr. S.K. Uma, HOD of dept. of Mathematics and Prof, Prashantha B.B with the coordination of student volunteers of Susamskriti. The host of the event was Sumanth Kumar.

There were totally 58 participants registered for essay competition and 21 participants for pick and speak competition, out of which 40 and 13 participants participated respectively, the details of which is attached below.

To,

The Principal,

Sir MVIT

Bangalore

Respected Sir,

Sub: Event closure report on the workshop conducted on "Basic Photography Workshop" on 27/06/2023 at CSE Seminar Hall between 2:00 pm to 3:30 pm.

With reference to the above subject, please find the attachment of EVENT CLOSURE REPORT on the "Basic Photography Workshop" conducted on 27/06/2023 (Tuesday) at CSE Seminar Hall between 2:00 pm to 3:30 pm.

This is for your kind information and perusal.
Thanking you,

Yours faithfully,

Manohar R

International Yoga Day
JUNE 21, 2023
"Yoga is a light, which once lit, will never dim. The better your practice, the brighter the flame."
B.K.S. Iyengar

Conducted by
Sampadam Yogashala
Hebbal, Bangalore

Report Summary

International yoga is observed on June 21st every year. On this occasion, Sir MVIT organized a yoga session for all staff and students. Around 200 participated in this event. Mamatha Gangadhar, Yoga Instructor from Sampadam Yogashala conducted the yoga session. Keerthana, 6th semester BT was the compere.

The event began with a formal introduction of Mamatha Gangadhar. Yoga demonstration was conducted for one hour. Several asanas like trikonasana, ardha chandrasana, sirsasana, ardha matsyendrasana etc were performed. The event ended with vote of thanks. All the participants were provided with refreshments.

# Yogathon 2022- Report Summary

Yogathon2022 is the world's largest yoga and health movement that aims to enable the youth to take charge of their health. Yogathon 2022 was announced on June 21 2022, on the International Yoga day and was organized on the occasion National Youth Festival 2023 by NSS, Govt. Of Karnataka.This was done in an effort to make Karnataka, India's FIRST YOGA Literate State. Over 6 lakh enthusiastic yoga enthusiasts set a new Guinness Book of World record by participating in yogathon held across 31 districts of Karnataka on 15th January 2023.

Over 40 students from Sir MVIT participated in this event at REVA University from 8 to 9:15 am and were a part of Guinness book of word record for gathering 6 lakh participants to do yoga simultaneously. The mass yoga drill was organized by the department of youth and sport.

An invited talk on

"Recent developments in Self Tuning Robots for Industrial applications"

09.01.2023

FINAL REPORT ABOUT THE PROGRAMME

The department of Electrical and Electronics Engineering of Sir M.VIT was organized an invited Expert talk on **"Recent developments in Self Tuning Robots for Industrial applications"** on 09.01.2023 Monday at 11.00 AM at the CSE Department Seminar hall. This event was a part of the inaugural ceremony of "the ROCC" (Robotics and Computer Vision Club) of Sir M.VIT.

About 100 participants were attended this event. The Programme was inaugurated by Dr. Jharna Majumdar, former Director of DRDO and former Dean (R&D) of NMIT, Bengaluru. Along with her Mr. Sudeep Kumar Gupta from IBM Automation division also present. Dr. H.L. Suresh, the Head of the EEE department was the chief guest and he briefed about the needs for the Robotics revolution in the current scenario. He also advised the students to learn more innovative courses related to AI, Machine learning and Robotics which are having immense employment in the future. Dr. Parthasarathy, Associate Professor of the Dept. of EEE and also the faculty coordinator of ROCC explained the objectives and the goals of the club and briefed about the upcoming activities. Dr. Uma, head of the Mathematics department also present on the eve and shared her views. The Student office bearers were introduced and their responsibilities were decided.

The "ROCC" Ianugural Session

Dr. Jharna Mujumdar Addresses the gathering

During her speech, Dr. Jharna Mujumdar explained in detail the recent happenings in the self-tuning Robotics field. She was shared her own experiences and the outcomes of her funded projects. She was motivated the students to enter into the Robotics domain in their early stages of studies so that the complete knowledge about the domain can be obtained. She then mentioned about the STUDSAT, the satellite developed by the Consortium of students from seven Engineering colleges which was successfully launched during 2010.

Mr. Sudeep Kumar Gupta explained about the problems related to nonlinear control design. He then discussed about the various simulation software available for the Robotics design and implementation. Feedback was collected from the participants and they have shared their views and expectations during the program. As the continuous process of this event, it was decided to conduct one hands on training on DSP system design in the month of April, 2023.With thanks giving session from the students coordinator, the program was concluded.

DEPARTMENT OF CIVIL ENGINEERING
SIR MVIT, BANGALORE

Report on online webinar on "Sustainable Cities with ESG impact" in Association with Indian concrete institute

Department of Civil Engineering, Sir MVIT had organized an online webinar in Association with Indian concrete institute Titled "Sustainable Cities with ESG impact" February 23rd 2023 from 10.00 Am onwards to students of Civil Engineering. The guest speaker was Mrs. AR. JYOTHI GUPTA, B.Arch, M.Arch, PGD (Smart Cities and UrbanAnalytics)UCL, ondon,(P.hd)Associate Professor, School of Architecture, CHRIST (Deemed to be University),Bengaluru.
Starting the session, welcome address by Mrs. Anitha J, Assistant Professor, Sir M.VIT. Later Er. H R Girish, Hon.Chairman, ICI-BENC addressed the gathering.

Dr. Ravi Kumar H, Associate Professor & HOD, welcomed Ar. Jyothi Gupta

Er. H R Girish, Hon. Chairman ICI (BENC) Er. Suhas R, Hon. Secretary ICI (BENC).

Mrs. Ramya N, Assistant Professor, Sir M.VIT, Bengaluru introduced speaker Jyothi gupta to the Participants.

Mrs. Ramya said that Mrs. Jyothi Gupta is an Architect, Geospatial Data Scientist, Associate Professor at CHRIST (Deemed to Be University), School of Architecture. She was awarded Global Smart Cites Champion from World CSR Congress having total of 16+ years of work experience in AEC Architecture Engineering Construction industry.

Jyothi have worked with L&T Construction, Synergy, NCBS & Cognizant. She have

handled project management in India for Tech Mahindra's office at ITC Building 6 & 7 in Electronic City, Flipkart's office

in Cessna Business Park, Mercedes-Benz office in Embassy Crest, TCS office in Gopalan Tech Park, Whitefield & TCS Infopark , Kochi, Kerala; IBM office at Manyata Business Tech (G3 block), ANZ office at Manyata Business Park- Block 3 , Embassy Corporate office at EGL etc. and started my career in an architectural firm, Locus Architects and Planners.

Also, she is an award Winner for CUSP London (Centre for Urban Science and Progress London) Hackathon organised by King's college, London

Social, and Governance)impact. ,
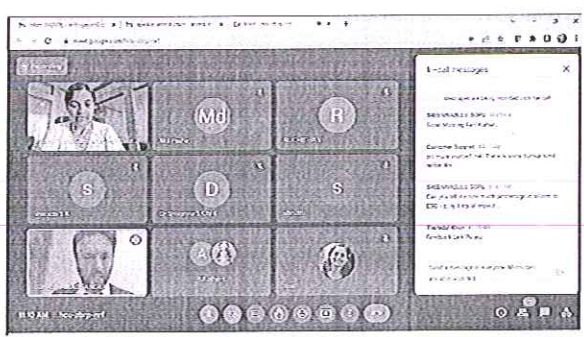

Mrs. Jyothi first explained about the basic concepts of Smart Cities and ESG(Environmental,

Later she explained about the stakeholder-centric approach to doing business. ESG is set on the principle that the environment is only one factor in determining an organization's commitment to sustainability and ESG Impact Assessment Process.

Later she enlighten participants with Education for sustainable development concept

Education for sustainable development (ESD) is a term used by the United Nations and is defined as education that encourages changes in knowledge, skills, values and attitudes to enable a more sustainable and just society for all. ESD aims to empower and equip current and future generations to meet their needs using a balanced and integrated approach to the economic, social and environmental dimensions of sustainable development.
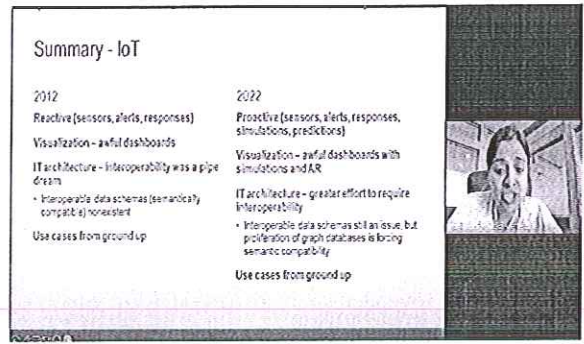

Mrs. Jyothi Gupta summerised Internet of things from 20212 to 2022.

Finally, Mr. Er. Suhas. R, Hon.Secretary, ICI-BENC proposed vote of thanks.
She also explained the concept of making city smart & five ways that ESG creates value.

ICI Student Chapter Co-ordinator
Mrs. Ramya N

Activity Report

Activity Date:13-02-2023

Activity Type: IIC Calender Activity

Quarter   : II

Theme   :"Poster Presentation on "Current Trends in Innovation"

As per the guidelines of MHRD and AICTE of Government of India, the Institutions's Innovation Council of Sir.M.VIsvesvaraya Institute of Technology conducted a Poster Presentation as the IIC Calendar activity Theme:"Current Trends in Innovation on 13h Feb 2023 for UG & PG students.The coordinator of the event was Prof.R.Latha and Dr. Soumya Patil. The theme for the poster presentation was Medical Science and Health care, Material and Manufacturing and Infrastructure. The jury member for the event was Dr. G C Bhanuprakash, Professor in the department of ISE & AI & ML, Sir MVIT, Bengaluru and Dr. H L Suresh Professor,Dept. of Electrical and Electronics Engineering in Sir MVIT, Bengaluru.

Dr. G C Bhanuprakash has two decades of experience in academia, research and industry. He has developed software for Timetable, NBA - SAR Preparation, Co-Attainment tool using Excel, Leave Management, Dispatch Software for College , Student Management System (SIMS),VTU Result Extraction and Analysis Report, Web base Registration Software for VTU Youth festival the "Yuvakalanjali 2017", Question Paper Delivery System (QPDS) for In-house requirement. He holds Ph.D. in Computer Science and Information Science from Dr. MGR University in 2011. He has published 30+ research articles in reputed international journals. His research interest includes Ad- hoc Networks, Sensor Networks, Network Security, Ubiquitous Computing . He is the reviewer committee member of IEEE International Conference INDICON 2008, First International Conference on Computational Intelligence, Communication Systems and Networks, 2009,International Conference on Information Processing ICIP 2010, ICIP 2011,4,Session chair in the International Conference on Advances in Computer Science and Engineering held at Phuket, Thailand, Session Chaired in more than 10 National and International Conference. He also the member of academic bodies of Local Inspection Committee (LIC) - Visvesvaraya Technological University(VTU), Belgaum during academic year 2013-14 & 2014-15, Board of Studies (BOS), Department of Computer Science, SAHE University. SAHE University Nominee Member, for PhD, Scholars, Member, Board of Examiners, SIT, Tumkur, An Autonomous Institution under VTU.

Dr.H.L. Suresh has 29+ years of experience in academia, research and industry .Currently he is working as a Professor Head in the Department of Electrical & Electronics Engineering at Sir M Visvesvaraya Institute of Technology. His research interest includes Power system stability studies, Voltage Stability, computer and Real time applications to Power Systems, Contingency and Security Analysis, Power System Stabilizers, Reactive Power coordination and Dispatch, Smart Grid Technologies, Power Quality issues, Renewable Energy etc. He hold Ph.D. in Electrical Engineering, Visvesvaraya Technological University, India (2010). He is a Advisory/Editorial Board member of Advisory/Editorial Board member of International Journal of Emerging Technology and Advanced Engineering (IJETAE), India, Board of Examiner to Adjudicate the Ph.D., Thesis in Vinayaka Mission University Salem, Tamilnadu,Advisory/Editorial Board member of Institute for Exploring Advances in Science &Engineering(IEAE),India,BOE Member of Malnad college of Engineering and Nitte meenakshi Institute ofTechnology,5.BOE Member for EEE Board of Visvesvaraya Institute of Technology, Balgavi-2020-21, BOE Chairman for EEE Board of Visvesvaraya Institute of Technology, Balgavi-2021-22. He has published 30+ research articles in reputed international journals. He has guided 46 UG projects, 5 PG projects and 4 Ph.d students. He is a member in professional bodies of Life Member of Indian Society of Technical Education [LMISTE}[LM26773], Life Member of System Society if India [LMSSI][LM24038], Member of Institution of Engineers(India) [MIE] [M-133629-5],Member of International Association of Science & Technology Development [IASTED],Canada, Fellow of Institution of Engineers(INDIA) --F-1268887.He has received Best Paper Award in National Control Instrumentation Systems Conference (CISCON-2005), Nov.11-12, 2005, MIT, Manipal, India, Certificate of Appreciation in recognition of outstanding performance and tireless efforts shown for Ibri College of Technology,2012 and Certificate of Appreciation in recognition of service to IBRICT and Professionalism.25th June 2013,Ibri College of Technology.

There was a cash prize for the best three poster from each theme. Students were evaluated on different parameters as kanowlwdge on research/project work,organization of the presentation,Usage of modern tools & technologies,presentation skills and Question & answer.Results were announced after the event. Llkitha R(1MV21MC022) and Kirana Basavaraj Hallur(1MV21MC019) won the prize on theme Medical Science and Health Care of Rs,1500/-, Nitya M(1MV21CS067),Sindhu. N (1MV21CS103) and Shubran.K(1MV21CS101) won the prize on theme Material and Manufacturing of of Rs,1500/-,and Harshitha K(1MV21MC014)and Shiva Shani(1MV21MC022) won the prize on theme Infrastruture of Rs,1500/-. Jury members also gave valuable suggestion and input to the students.

22 Jury Members Profile

I. Name of the Jury Members:
- Dr. G C Bhanuprakash
- Dr. Suresh H L

II. Designation:

i) Dr. G C Bhanuprakash, Professor in the department of ISE & AI & ML, Sir MVIT, Bengaluru

ii) Dr. H L Suresh Professor, Dept. of Electrical and Electronics Engineering in Sir MVIT, Bengaluru

III. Experience: Dr. G C Bhanuprakash

Academic

i) Dr G C Bhanuprakash has 25 years of teaching experience, as Professor, Department of CSE, Sir M Visvesvaraya Institute of Technology.

ii) Presently working as Professor and HOD, Department of ISE and AI ML.

Research

i) Dr G C Bhanuprakash has 5 reseach scholars registered under Visvesvaraya Technological University amongst which one research scholar is awarded.

ii) Dr G C Bhanuprakash has one research scholar registered under SAHE university Tumkur

IV. Experience: Dr. H L Suresh

Academic

i) Dr H L Suresh has worked as a Professor & P G Coordinator, Department of Electrical & Electronics Engineering Nitte Meenakshi Institute of Technology

II) Dr H L Suresh has worked as a Prof & Head of Section, Electrical Power Engineering Ibri College of Technology, P.O. Box 466, Postal Code:516 Al-Aqder, Ibri, Muscat, Oman

Research

i) Dr H L Suresh has guided 4 research scholars in Visvesvaraya Technological University

Welcome to TechVistara 2.0

TechVistara 2.0 focuses on giving a brief about trending tech domains like Web development, App Development, Ethical Hacking, Data Structures and Algorithms, System Design and other important topics like personal branding and laptop guide. There will be a session on each topic followed by a quiz. The winners of the quiz will be awarded with cool swags. So don't miss out — come join us on January 13 at New Auditorium.

Register for the event here

TECHVISTARA 2.0 - TECH_IT_OUT

Agenda

- o Session followed by quiz on Web Development
- o Session followed by quiz on App development
- o Session followed by quiz on Data structures and Algorithms
- o Session followed by quiz on Laptop Guide
- o Session followed by quiz on Ethical Hacking
- o Session followed by quiz on Personal Branding
- o Session followed by quiz on System Design
- o Online Tech Quiz to be conducted.
- o Any announcements, feedback, QnA.

Event Details

This event aims to give the audiences a brief idea about all the popular domains trending now a days.

Venue: New Auditorium

Date: 13th January 2023

Time: 12:30 - 3:50 PM

Speakers:

- o Apoorv Kumar
- o Vishal Sinha

- o Ankit Josh
- o Ayush Rathore
- o Mehul Jaiswal
- o Kushagra Agarwal
- o Shreya Raj

The event was held as follows:

The event was managed by the orators (Anusha Singh, Arunita Sahu, Apoorva Shreya and Purushuttam Kumar) in a very smooth manner. Event takes of as the orators introduced the audience to the teacher coordinators, introduced audience to the community.

Web Development

Speaker: Apoorv Kumar

About Web development

Web development is the process of designing, building, and maintaining websites. It involves a combination of front-end and back-end development to create dynamic and interactive web pages. Front-end development focuses on the visual and user-facing aspects of a website using technologies such as HTML, CSS, and JavaScript. Back-end development, on the other hand, involves server-side scripting and database management to power the functionalities of a website. Web development is crucial in today's digital age as a majority of businesses and individuals have a web presence to reach and engage with a wider audience

Talk Included

- Front End Web development
- Version Control System
- Back End Web Development
- Why do we need a community

Salary of a Web Developer

The average salary of a web developer in India is around ₹5-7 lakhs per year, with top earners making over ₹10-12 lakhs. In the United States, the average salary for a web developer is around $75,000 per year, with top earners making over $120,000. The salary range for web developers varies based on experience, skills, location, and company size. Both India and the US have a high demand for skilled web development professionals, making it a lucrative career option. The web development industry is constantly growing and evolving, offering opportunities for growth and advancement for web developers.
App Development

Speaker: Vishal Sinha

Why App Development?

- o High demand
- o Career opportunity
- o Start-up Potential
- o Flexibility
- o Constant Learning

Platforms

- o Native - Specific for a particular operating system like Android or iOS
- o Cross Platform - Used to create App for more than one operating system with a single codebase.

Native

- o Native app development is the process of building apps specifically for a particular operating system (OS), such as iOS or Android.
- o Native apps are built using programming languages specific to the OS, such as Swift for iOS and Java for Android.
- o Native apps are faster and more reliable than cross-platform apps, as they can take full advantage of the device's hardware and software capabilities.
- o Native apps can be sold through app stores, and have the ability to receive updates and push notifications.

Cross-Platform

- o Cross-platform app development involves building an app that can run on multiple operating systems, such as iOS and Android.
- o Cross-platform apps are built using technologies such as React Native, Xamarin, or Flutter, which allow for code reuse across different platforms.
- o This can result in faster development times and lower costs compared to native app development.
- o Cross-platform apps also have the advantage of reaching a wider audience, as they can be released on multiple app stores.
- o However, cross-platform apps may not have the same performance or access to device features as native apps, and may not provide as seamless of an experience.

Facts

- o As of January 2021, Android is the most popular mobile operating system in the world, with a market share of over 80%.
- o Android has a large user base, with over 2.5 billion active devices as of September 2020.
- o iOS has a market share of around 15-20% in the global smartphone market
- o Android apps can be developed on macOS, Windows, and Linux, using various integrated development environment (IDE) such as Android Studio.
- o iOS apps are developed using Xcode, which is only available on macOS.

How to start?

- o Documentation
- o Boot Camps
- o Online Course
- o Self-Implementation

ChatGPT Voice App

Speaker demonstrated the application to audience
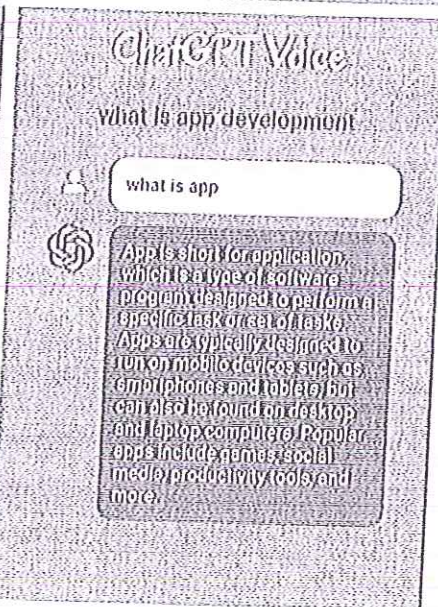

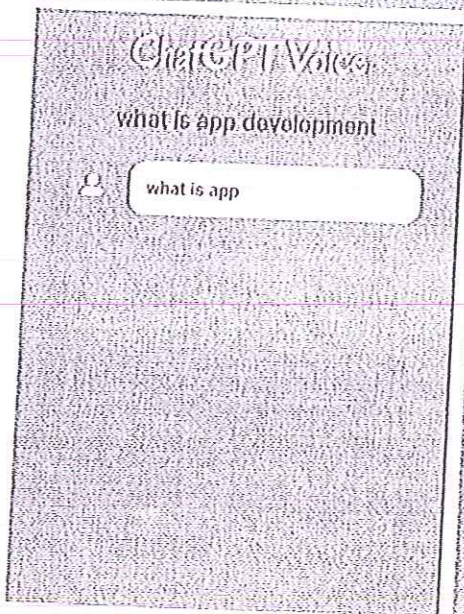

Competitive programming and DSA

Speaker: Ankit Josh

What is programming?

Programming is the process of designing, writing, testing, debugging, and maintaining the source code of computer software. It involves using programming languages, such as Python, Java, C++, to write instructions that tell a computer what to do. These instructions, also known as code, are executed by the computer to perform specific tasks. Programming is a fundamental aspect of computer science and enables individuals to create software applications, websites, and other types of computer programs. It requires a combination of logical thinking, creativity, and problem-solving skills. By learning how to program, individuals can develop their ability to think computationally and create innovative solutions to real-world problems.

Programming Languages

We communicate with computers with help of programming languages. These are languages that the computer understands.

Here are a few popular ones:

- C++
- Java
- Python
- JavaScript

What is DSA?

DSA stands for "Data Structures and Algorithms".

- It is a branch of Computer Science that deals with creating machine-efficient computer programs.
- "Data Structure" refers to storage of data and "Algorithm" is the procedure to solve a problem.
- By combining both "Data Structures" and "Algorithms", we optimize the codes in Software Engineering.

Why do DSA?

- It is the fundamentals of Computer Science
- It will help you in cracking interviews at MAANG
- Helps stand out your resume
- It will help you while doing projects
- It will increase your problem-solving ability
- It makes your mind sharper

Real life example

- Arranging Books
- Picking Plates
- Shortest path

What is Competitive Programming?

Competitive programming is the practice of solving algorithmic problems using programming techniques to improve problem-solving skills and participate in contests like CodeForces, LeetCode, HackerRank, etc. It helps in developing skills in data structures, algorithms, optimization and familiarizing oneself with different types of computational problems. It also provides a platform for individuals to compare their problem-solving skills with others and improve over time. Participating in competitive programming can be a valuable experience for anyone looking to pursue a career in software engineering or computer science.

Why do CP?

- You will become very good in problem solving
- Doing CP prepares you for OAs of tough companies
- Contests prepare you for interview pressure
- Getting good ranks helps in resume shortlisting and referrals
- It's fun! You will love the adrenaline rush for the green AC.
Laptop Guide

Speaker: Ayush Rathore

Basic features to look for

- Lightweight and Handy
- Durability - Screen should not wobble. Base should be firm
- Battery Life -- Should last at least 4 hours if possible
- Powerful Enough -- No Windows 7 Systems now please. Should suffice all your Engineering needs.
- Support for different OS -- example: Linux

Minimum specification

- Processor -- Intel i5 or Ryzen 5 (9th or 10th Gen)
- Storage -- 512 GB SSD or (1 TB HDD variant comes in few models only)
- 8 GB RAM (DDR4 preferably)
- 2 GB Dedicated Graphics Card

Additional points

- Backlight Keyboard
- Full HD Screen with antiglare
- Web-Cam
- Large Keyboard and Trackpad
- Stay Away From 2 in 1 Convertibles
- Check if Microsoft Office is pre-included or not.
- Brands don't matter. Individual model does.
- Look for lot of reviews from trusted sources before finalizing one. Check the same offer in stores.
- Don't go for too powerful Processors, they drain battery faster.

Worthy Mentions

- MSI GF63
- Apple MacBook Air

- o Asus Vivobook Series
- o Dell Inspiron Series
- o Lenovo Ideapad Slim 5
- o Lenovo ThinkBook Series

Personal Branding

Speaker: Shreya Raj

What is Personal Branding?

Personal branding is the practice of creating a unique image and identity in the market place, that differentiates and defines an individual. It involves carefully crafting one's personal and professional reputation, values, skills, and accomplishments, and then presenting them to the world in a consistent manner. Personal branding helps individuals to stand out, establish credibility, and attract opportunities, both professionally and personally. It is about projecting a clear and authentic message about who you are, what you stand for, and what you have to offer.

Personal branding can help individuals advance their careers, increase their visibility and influence, and achieve their personal and professional goals. It is a continuous process of self-reflection, self-awareness, and self-promotion.

Why personal branding is important?

Personal branding is important because it helps individuals to be recognized, remembered, and valued in the market place. A strong personal brand enhances credibility and attracts opportunities, both professionally and personally. It enables individuals to stand out, differentiate themselves, and showcase their unique strengths, skills, and values. Personal branding helps to build trust and credibility, and can be a factor in securing employment, clients, or customers. In today's digital age, personal branding has become even more critical, as it provides a platform for individuals to shape their online reputation and make a positive impact on their professional network. Personal branding is a valuable investment in one's future and a key aspect of personal and professional success.

How to do Personal Branding?

- Personal branding involves several steps to create and promote a unique and authentic personal brand. These include:
- Self-reflection: Take time to understand your values, strengths, skills, and what sets you apart.
- Define your brand: Craft a compelling personal brand statement that defines who you are and what you have to offer.
- Create a strong online presence: Establish an online presence that supports your personal brand, such as LinkedIn, Twitter, and other professional networks.
- Consistency: Ensure consistency in your personal brand across all channels, such as your resume, cover letter, and online profiles.
- Networking: Connect with others in your industry, attend events, and engage with your professional community.
- Personal Development: Continuously improve yourself and your skills, and share your achievements and accomplishments with your network.

By following these steps, you can create a strong and memorable personal brand that will help you achieve your personal and professional goals.
Cyber Security

Speaker: Mehul Jaiswal

What is Cyber Security?

Cyber Security is the practice of protecting computer systems, networks, and data from unauthorized access, theft, damage, and destruction. It involves implementing technologies, processes, and policies to secure information systems from cyber threats such as malware, hacking, phishing, and ransomware. Cyber-security is essential for organizations, governments, and individuals as the increasing reliance on technology has made it more vulnerable to cyber-attacks. Effective cybersecurity measures help protect sensitive information, maintain privacy, and ensure the integrity and availability of critical systems and data.

Why and where it is used?

Cybersecurity is used to protect computer systems, networks, and digital information from unauthorized access, theft, and damage. Here are six key points explaining why and where it is used:

- Protecting sensitive information: It measures are used to safeguard sensitive information, such as financial and personal data, from theft and exposure.
- Maintaining privacy: It helps protect the privacy of individuals and organizations by ensuring that their personal and confidential information is not accessible to unauthorized individuals or organizations.
- Ensuring business continuity: It helps ensure the availability and reliability of critical systems and data, so that organizations can continue to operate even in the face of cyber-attacks.
- Preventing financial losses: It can prevent financial losses caused by theft or unauthorized access to financial systems and data.
- Protecting national security: Governments use cyber-security to protect their national security interests, including critical infrastructure, sensitive government information, and military systems.
- Safeguarding personal devices: It is also important for individuals to protect their personal devices, such as laptops, smartphones, and tablets, from cyber threats.

How one can start out in this field?

- Basic IT Skills
- Networking skills
- Linux Skills
- Coding Skills
- Hacking Skills
- Specialization

How to earn money in Cyber Security?

There are several ways to earn money in Cyber-security including:

- Working in a cyber-security role: Many organizations are in need of cyber-security professionals who can help protect their systems and data. Roles such as security analyst, penetration tester, and security consultant are in high demand and can offer lucrative salaries.

- Starting a cyber-security business: Entrepreneurs with cybersecurity expertise can start their own businesses, offering services such as penetration testing, security consulting, and security product development.
- Participating in bug bounty programs: Companies such as Google and Microsoft offer bug bounty programs, where individuals can earn money by finding and reporting security vulnerabilities in their systems.
- Teaching and training: Cyber-security professionals with a passion for teaching can offer training and education services to individuals and organizations.
- Writing and blogging: Writing about cybersecurity topics can help build your reputation as an expert in the field, which can lead to opportunities for consulting, speaking, and other paid work.
- Participating in cybersecurity competitions: Cybersecurity competitions, such as Capture the Flag events, provide a platform for individuals to showcase their skills and earn recognition and rewards.

By pursuing any of these paths, you can turn your expertise in cybersecurity into a rewarding and lucrative career. However, it's important to continually expand your knowledge and skills to stay up-to-date with the latest trends and developments in the field.
System Design

Speaker: Kushagra Agarwal

What is System Design?

System design is the process of defining the architecture, components, modules, interfaces, and data for a system to satisfy specified requirements. It involves creating a blueprint or a model of the system, including both hardware and software components. The main objective of system design is to ensure that the system is efficient, scalable, maintainable, and meets the requirements of the users.

In software development, system design involves defining the architecture of the software application, identifying the components and modules, and determining how they will interact with each other. In hardware design, it involves specifying the hardware components and their interactions, as well as defining the electrical and mechanical interfaces.

System design is a critical stage in the development process, as it sets the foundation for the development, testing, and deployment of the system. A well-designed system will have fewer bugs and be easier to maintain, resulting in lower costs and a more reliable end product.

189

What is a Server?

A server is a computer system that provides shared resources or services to other devices on a network. Servers are typically used to host applications, store and manage data, and provide centralized services to clients. They can be used for a wide range of purposes, such as web hosting, email, file sharing, database management, and more.

Servers are typically more powerful and have larger storage capacity than regular computers, as they are designed to handle multiple requests and perform complex tasks. They can be deployed in physical or virtual form, and can be located on-premises or in the cloud.

Servers are essential components of computer networks, providing the infrastructure necessary to support applications and services. They help ensure the reliability, scalability, and security of the network, and play a key role in enabling businesses to operate more efficiently and effectively.

How do we communicate over internet?

(196)
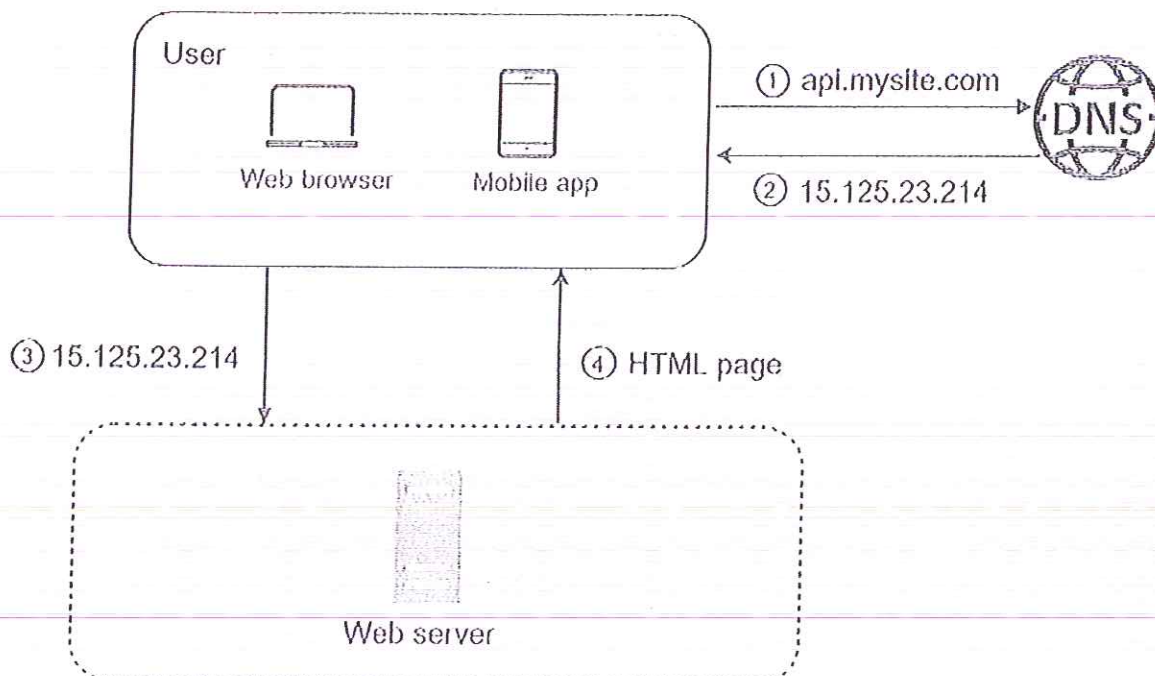

How meta handles billions of users?

- Handling billions of users effectively requires a robust and scalable system. Here are some key points to consider when addressing this challenge:
- Scalability: Breaking down the system into smaller components that can be distributed across multiple servers, allowing for a larger volume of users.
- Load balancing: Distributes incoming traffic evenly across multiple servers to prevent any single server from becoming overwhelmed.
- Data management: Utilizing efficient data storage and management systems, such as databases and caching technologies, to handle large amounts of data.
- Robust infrastructure: Having a secure and reliable infrastructure that can handle the demands of billions of users.
- Monitoring and maintenance: Regular monitoring and maintenance of the system to ensure that it continues to operate optimally and resolve any issues in a timely manner.

By combining these key points, meta is able to handle billions of users, providing fast, reliable, and secure online communities.

191
Quiz

A quiz was conducted after the completion of all the sessions. The quiz was well-received by the participants who eagerly participated and attempted to answer the questions to the best of their abilities.

At the end of the quiz, the scores were calculated and the winners were announced. The participants were awarded with various swags for their achievements, which served as a fitting reward for their knowledge and dedication. The winners were thrilled and celebrated their success with great enthusiasm.

DSA Kickstart Session 1

techhub <CODESHACK> GLUG

DSA KICKSTART

SERIES
EPISODE: 01
THURSDAY | 23 FEBRUARY

TIME: 06:00PM

MODE: ONLINE

- The main goal of the session was to get students started and introduced to DSA.
- Around 70 students attended the session.
- Keeping into consideration students are complete beginners, Ankit Josh(speaker) addressed the importance of basic mathematics in logic building that helps in code implementation.
- Importance of DSA was highlighted.
- The topics covered were basics of Arrays, Searching (linear and binary search) and sorting (bubble sort) techniques.
- Solving a problem on each topic and a very interactive session with discussion on various approaches to solve the problems.
- At the end, QnA was there to answer the queries of the students.

DSA Kickstart Session 2 Report

techhub   </> <CODESHACK>   GLUG

DSA KICKSTART

TOPIC : TIME AND SPACE COMPLEXITY
SATURDAY | 11 MARCH
TIME: 09:00PM
MODE: ONLINE
The session started at sharp 9:00 pm on 11th March, Saturday. The topic for the session was time and space complexity analysis. The session was hosted by Ankit Josh very well. The session was open for everyone and many students were present in the session. It lasted for around 2 hours. A total of 45 were present during the session. Topics like Time Complexity, Big-Oh Notation, Space Complexity, Auxiliary space etc. were discussed during the session. There were MCQs at the end of the session which consisted questions related to the topics taught in the session. The session was quite interactive as most of the students were responding and answering during the course of the session.

Advanced Concepts of API

<CODESHACK>

techhub   GLUG
Topic of the Week

API
SUNDAY | 19 MARCH
TIME: 05:30PM
MODE: ONLINE

- The objective of the session was to introduce and help people develop an understanding of application programming interfaces or API's.
- Around 30 people attended the session.
- Keeping in mind that the attendees had some prior knowledge of how the internet works, Kushagra Agarwal (the speaker) covered various advanced topics skirting around API's.
- The session started with a basic understanding of the protocols used over the internet and progressed onto a detailed tour.
- The topics covered were HTTP (1.1, 2.0, 3.0), TLS, OSI and TCP/IP model, layers of the internet, networks, client-server requests, routers, ports, latency, encryption, congestion control, chunking, web-sockets along with various other sub-topics.
- The session was filled with regular questions related to the current topic which were answered by several people in the meet.
- After having dealt with the theory part the session moved on to a practical hands-on example (using Python-Flask) to give clarity over the theory discussed.
- Concluding the session, a small Q & A segment was kept to answer the queries of the participants.

TLS
Transport Layer Security

What is the OSI Model?

- 7 Layers each describe a specific networking component
- Layer 7 - Application: HTTP/RTP/gRPC
- Layer 6 - Presentation: Encoding Serialization
- Layer 5 - Session: Connection Management TLS

Coding Contest
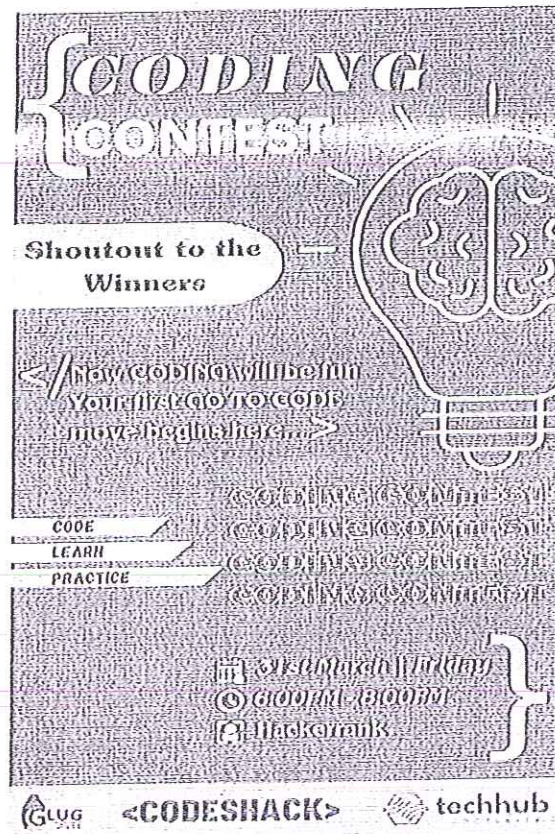

The contest was held from 6 pm to 8 pm on 31st March, Friday. The aim of the contest was to give the students a platform to practice their coding skills and at the same time they can compete with their fellow coders. The contest saw a total of 17 participants belonging to different branches and semesters. After the contest, the solution to all the problems were shared with the participants so that they can learn from the optimized solutions.

The results are as follows:

1st : Shashikant Rai
2nd : Divyanshu Prince

3rd : Vaibhav Chuttani

3rd : Sanskar Sharma

3rd : Rishabh Srivastava

3rd : Nitin Singh

Beyond The Resume

- That sounds like a fantastic keynote session! It seems to have covered a range of important topics related to career development and job applications.
- Around 125 students attended the session which ensured that it was a houseful event at the CS Seminar Hall.
- Resume building is a crucial skill, and it's helpful to receive guidance on what to include and how to tailor your resume for specific companies. Learning the do's and don'ts would greatly improve the chances of getting noticed by potential employers.
- System design is another important aspect, especially for those interested in engineering roles. Understanding how to design and build complex systems is a valuable skill in the tech industry, and hearing about the speaker's experiences in this field have been insightful for the attendees.
- The mention of the placement series and Abhishek Kumar's personal journey from AIG to Google is likely to have inspired and motivated the students. Learning about the experiences of someone who has successfully navigated the job market and secured positions at prestigious companies provided valuable insights and tips for the students.

- o Lastly, the opportunity for attendees to engage with Abhishek Kumar and ask questions made the session even more enriching. Being able to interact with someone who is working in a dream company like Google allowed the students to gain a better understanding of the industry and potentially clarify any doubts they may have.

Overall, it sounds like a memorable and beneficial session that provided attendees with a wholesome experience and the opportunity to learn from a successful professional in the field.
