

SIR M. VISVESVARAYA INSTITUTE OF TECHNOLOGY

Affiliated to VTU, Belagavi | Approved by AICTE | Accredited by NAAC UGC
Krishnadevarayanagar, Bengaluru, Karnataka

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Organizes WEBINAR on PROCESS SCHEDULING CHALLENGES IN MULTI-CORE SYSTEMS

Resource Person:
Dr. SHEELA KATHAVATE
Associate Professor,
Dept. of ISE, BMSIT&M

16 JULY, 2021 @10:00am to 12:00pm

Principal: Dr. V. R. MANJUNATH

Convenor: Dr. G.C. BHANUPRAKASH

Co-ordinators: Dr. PALLAVI R., Associate Professor &

Dr. SUSHILA SHIDNAL, Assistant Professor

REGISTRATION LINK: <https://forms.gle/SGcgJWSf14JyRJ4f7>

WEBINAR LINK: meet.google.com/qhv-sdsg-upz

Timestamp	Username	Full Name Of The Participant	USN	Contact Number	Dept.	1. Expert Speaker was able to create interest in the topic	2. The presentation contained practical examples and useful techniques (Low-1 High-5)	3. Were the multi-core concepts made clear by the expert?	4. What are your key takeaways from this webinar (Any Feedback)	5. Overall Feedback

Report on Intellectual Property Rights (IPR) and IP Management for Start-ups workshop

Presentation Topic: Overview on Intellectual Property Rights (IPR) and IP Management for Start-ups

Resource Person:

Dr. K. GOPALAKRISHNAN

Secretary General of University Space Engineering Consortium-India

Founder and Convener, 75 Students' Satellites Consortium: Mission 2022!

Sir M Visvesvaraya Institute of Technology in association with Institutions Innovation Council, Sir MVIT – KSCST IP CELL and Department of Electrical and Electronics Engineering had organized an workshop on 16th July 17, 2021. The Objective of the workshop was to give a general introduction to the concept of Intellectual Property Rights and Their Role in Technology Transfer and Startups to students, Research scholar and faculty

Due to the deadly pandemic spread happening, the workshop was organized online. Dr. Mahesh.K, Professor , EEE dept. and Coordinator of SirMVIT- KSCST IP Cell , Introduced Dr. K. GOPALAKRISHNAN , Speaker , of the workshop to the participant and Highlighted the importance of such workshops. Dr. K. GOPALAKRISHNAN, started is session by giving a brief introduction of the intellectual Property Rights and is importance in Academics, Research and startups. He explained about various types of Intellectual property rights like Patents, Trade Marks, Design, Copy Rights and Geographical Indications. He spoke about the Indian patent and its office in our country and also explained the importance of holding patents in the other countries. He touched up Patent search, IP Filing, process of patent awarding and many more key points about IPR. At the end he instead that all the academic institution to support the talented students, research scholar and faculty to go for IPR and encourage Startups. He did not forget to thank SirMVIT, Management and Principal, for providing an opportunity to be speaker of this workshop. The last 15 minutes of the workshop, QA session was taken up and participants asked their questions and the speaker answered to them all.

Indeed, the workshop was lead to its objective and all the participants thank the speaker for the wonderful session.

The workshop had received 150+ registrations and over 100+ participated in the session.

We would like to thank Sri Krishnadevaraya Trust, SirMVIT IIC, SirMVIT-KSCST IP CELL and Dept of EEE, for providing us an opportunity to organize this workshop.

To,
The HOD,
Dept. of ECE
Sir MVIT

From,
Seema S.
Asst. Professor
Dept. of ECE, Sir MVIT

Respected Sir,

Sub: Permission to conduct Student Development Program on "Hands on session on Signals and Control systems Engineering Applications using MatLab" from 14th to 16th July 2021.

With respect to above subject, we are planning to conduct a Student Development Programme on "Hands on session on Signals and Control systems Engineering Applications using MatLab" from 14th to 16th July 2021. This SDP introduces MATLAB for Signals and Systems and Control Systems applications. This program is beneficial for the 4th semester engineering students.

Kindly oblige.

Thanking you.

3 Days Student Development Program

On

"Hands on session on Signals and Control systems Engineering Applications using MatLab"

Report

The department of Electronics & Communication Engineering, conducted three days SDP on *"Hands on session on Signals and Control systems Engineering Applications using MatLab"* on 14th -16th July 2021. This SDP was sponsored by Sir KET. The Invitation for SDP was sent to 4th semester ECE and TCE students. The response was very good. Total number of participants were 100 in number. The registration started on 10th July 2021 online.

Inauguration started at 5.45 PM HOD, Dr. R. Sundaraguru, presided the inaugural function accompanied by Dr Sasmita Mahopatra, Associate professor, Dept. of ECE. Dr. Sasmita Mahopatra, Associate professor, Dept. of ECE, welcomed the Resource person for the program Mrs. Seema.S & Mrs. Vani B P and the participants. Dr. R. Sundaraguru, HOD, Dept. of ECE gave his presidential remarks and highlighted the importance of qualitative research. Inaugural function ended with vote of thanks.

On the first day, Mrs. Seema S., Assistant Professor, Dept. of ECE, Sir M.VIT, as a resource person started the first session at 6.00 pm with introduction to MATLAB and generation of elementary signals in signal processing.

Second day started with hands on session using MATLAB live editor. Instructions were given to use the live editor and simple programs on signal processing including Convolution, Fourier Transforms and their real time applications were discussed.

On Third day of the program Mrs. Vani B P Assistant Professor, Dept. of ECE, Sir M.VIT was the resource person, explained how MATLAB could be used in system design and analysis with transfer functions, response and stability analysis

of systems and also discussed the importance of PID controllers in real time designing.

On the third day, after the valedictory, feedback was received from the participants regarding the SDP. All three sessions were very informative, also queries raised from the participants were clarified. The three days SDP was conducted successfully.

Feedback

Sl. No	Full Name(to be printed on the certificate)	Does the program helped to Create, select, and apply appropriate techniques, resources and modern engineering and IT tools	Does the program provides methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions	Does the program given opening for life-long learning!	Course content was organized and well planned	What aspects of this course were most useful or valuable?	Over all Feedback about the SDP	Any Suggestions for the improvement of the program
1	Aditya Singh	Yes	Yes	Yes	Excellent	Matlab was interesting to learn.	Excellent	It was overall good.
2	Harini Sampath	Yes	Yes	Yes	Excellent	Getting to know how versatile MATLAB is.	Excellent	Weekly or monthly sessions would be good, to know more about it.
3	Devika S G	Yes	Yes	Yes	Excellent	Valuable	Excellent	Nothing
4	K S Bhavishya	Yes	Yes	Yes	Very Good	It gave an overlook for MATLAB.	Very Good	It would be better if we had more lecturers.
5	Abhishek masgal	Yes	Yes	Yes	Very Good	Analysing the theory part onto a more technical sort like understanding it with better graphs was the best.	Excellent	More on how to write the programmes

Report on

ILD Program on FBG Sensors – Principles and its Applications

FBG Sensors – Principles and its Applications is conducted by IEEE student chapter SIR MVIT and IEEE photonics society Bangalore section on 2nd July 2021. There were 66 participants for this event.

A fiber Bragg grating (FBG) is a type of distributed Bragg reflector constructed in a short segment of optical fiber that reflects particular wavelengths of light and transmits all others. This is achieved by creating a periodic variation in the refractive index of the fiber core, which generates a wavelength-specific dielectric mirror. Hence a fiber Bragg grating can be used as an inline optical fiber to block certain wavelengths or it can be used as wavelength-specific reflector

A fiber Bragg grating (FBG) is a microstructure typically a few millimeters in length that can be photo inscribed in the core of a single mode fiber. This is done by transversely illuminating the fiber with a UV laser beam and using a phase mask to generate an interference pattern in its core. This will induce a permanent change in the physical characteristics of the silica matrix. This change consists in a spatial periodic modulation of the core index of refraction that creates a resonant structure.

Protected with a primary coating, the diameter of the fiber is 250 micrometers. Without this coating, the fiber has a diameter of 125 micrometers. The light then travels within the core, which has a diameter of approximately 8 micrometers.

FBG Sensor Applications:

Communications

Fiber Bragg grating sensors

Fiber Bragg gratings used in fiber lasers

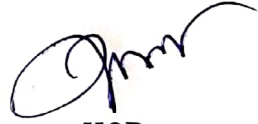

Process of matching active and passive fibers

Report on the Student Development Programme(SDP) on

"A Webinar on PROGRAMMING ON JAVA (Array's and Strings in JAVA) "

Date:21-6-2021

The event started by welcome Address given by the VIJAYAKUMARA Y M Assistant professor Dept of ISE. Welcomed the Chief Guest Mr. Ramesh Timmarasu ,Assistant Professor from Presidency University, Bengaluru, Principal, HOD of ISE, staffs and all the Participants and students.

The session was conducted by Mr. Ramesh Timmarasu . The Resource person shared his knowledge and explained the concepts Arrays and Strings in java with examples .

The students from II year, have attended the Program and training was given by the Resource person Mr. Ramesh Timmarasu, how to make java programs and execute with examples of arrays and strings in java.

Overall have 40 students participated in the event and the feedback received for the event is overwhelming.

The Vote of Thanks was given by the Convenor Mr.Vijayakumara Y M.

APPRECIATION LETTER

To
Mr. Ramesh Timmarasu
Assistant Professor,
Department of CSE,
Presidency University, Bengaluru

Dear Mr. Ramesh Timmarasu

We appreciate your contribution as Invited key note speaker on the Topic
“SDP-A Webinar on Programming on JAVA (Arrays and Strings in JAVA)”
organized by Department of Information science and Engineering on 21-June-2021. We
have received positive feedback from the participants and thank you very much for sharing
your knowledge as key note speaker.

Thanking You

Yours faithfully,

Dr.P.VIJAYAKARTHIK

22/6/2021
Professor and Head
Dept of ISE

Department of Electronics & Communication Engineering

From, Dr. Sasmita Mohapatra,
Associate Professor,
Department of ECE

1/6/2021

To,
The Principal,
Sir MVIT.

Through,
The HOD, Department of ECE,
Sir MVIT.

Respected Sir,

Sub: Permission to conduct Three- days National Level Student Development Program (Webinar) on "Innovative Technologies" Reg.,

With reference to the above subject, it is to bring to your kind notice that the Department of ECE, has planned to conduct a three day National Level Student development program(Webinar) on "Innovative Technologies". It is expected that the students from various colleges from different states are expected to participate in the workshop. This will help the students to enhance their knowledge on the niche areas and making them industry ready no sooner they graduate.

In this regard, I request you to kindly permit us to conduct the program from June 18th - June 20th, 2021. The expected number of participants will be fifty.

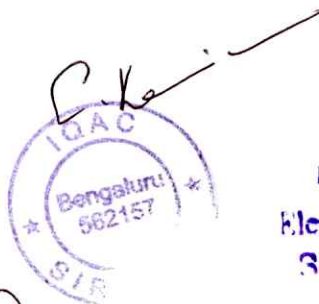

The resource personnel for this webinar are ,Dr.C S Mala Professor and Dean ,BMSIT, Dr. Veerendra Dakulagi, Associate Professor and Dean ,GNDEC ,Bidar and Mr. Priyaranjan, Delivery Manager Shell.

I request you to kindly support us by giving the permission to conduct this webinar

Thanking you,
Yours faithfully

Sasmita Mohapatra
1.6.2021.

(Dr. Sasmita Mohapatra)
Associate Professor

Department of Electronics and Communication

" National Level Webinar on Innovative Technologies "

REPORT

The department of Electronics & Communication Engineering, conducted three days SDP on *" National Level Webinar on Innovative Technologies "* on 18th -20th June 2021.

The Invitation for Webinar was sent to students and faculties of various affiliated colleges of Engineering and Technology. The response was very good. Total number of participants were 156 in number. The registration started on 15th June 2021 online.

Inauguration started at 5.45 PM HOD, Dr. R. Sundaraguru, presided the inaugural function accompanied by Dr Sasmita Mahopatra, Associate professor, Dept. of ECE,. Dr Sasmita Mahopatra, Associate professor, Dept. of ECE, welcomed the Resource person and participants for the program. Dr. R. Sundaraguru, HOD, Dept. of ECE gave his presidential remarks and highlighted the importance of Innovative trending technologies and their importance. Inaugural function ended with vote of thanks.

On the first day, Dr. C S Mala, Professor& Dean, BMSIT, Bengaluru, Resource person started the first session at 6.00 Pm with introduction to Embedded Systems and their real time applications. Programming using Arduino was introduced for real time applications.

On Second day of the program Dr. Veerendra Dakulagi, Professor & Dean, GNDEC, Bidar was the resource person, Introduced to advances in Adaptive Antenna technology with help of simulation tool.

On Third Day Mr.PriyaRanjan, Delivery manager, Shell, introduced the participants to project and product management, which was use full for student participants who were doing their mini and main projects.

The feedback received from participants was very good towards the program. All three sessions were very informative, also queries raised from the participants were clarified.

The three days National level webinar was conducted successfully.

Faculty Coordinators

Dr. Sasmita Mohapatra,
Associate Professor, Dept. of EC
Mrs. Vani B P
Mrs. Sheetal Bagali
Mr. Phanindar Ravi
Mr.Naveen I G
Assistant Professors, Dept. of ECE

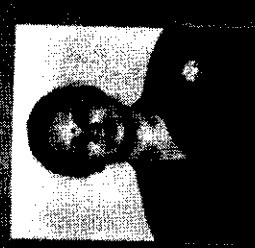

A handwritten signature in black ink, likely belonging to Dr. R Sundaraguru, is written above his name.

Dr. R Sundaraguru,
Professor & HOD, Department of ECE

REPORT ON

Webinar: "BUSINESS MODEL CANVAS"

(6th April 2021)

Objective:

The objective of the program is to encourage Students / Faculty to be an Entrepreneur, through proper knowledge on Business model and its key activities which are useful in the strategic implementation developing new business models and documenting existing ones.

Benefits of the Program:

- Students and Faculty were motivated by speakers focus upon setting up of business model and its requirements.
- It also inspired many of the participants to think that the Business Model Canvas (BMC) is an entrepreneurial tool that enables you to visualize, design, and reinvent business models.
- They gave a glimpse of stages in establishing a Business Model.
- The students were inspired by the way the speakers focused on Infrastructure, offering, customers and finances.

A webinar "Business Model Canvas" – A Motivational Session conducted by Institution's Innovation Council (IIC), Sir M. Visvesvaraya Institute of Technology on 6th April, 2021. There were 100 registered participants including both faculties and students.

Speakers of this webinar are Dr. Prasad Kulkarni, Gogte Institute of Technology, Belagavi and Dr. T. Joel Gnanaprakash, Assistant Professor, Christ Deemed to be University, Bangalore.

Dr. Joel Gnanaprakash emphasized upon interrelationship in the various stages of BMC. They spoke about how the revenue can be generated from revenue streams to key resources and how it can be channelized to establish a successful Business Model. They explained about key activities and value proposition. Dr. Prasad Kulkarni gave examples of established Business Models like DELL BMC, Netflix and Ninja cart Business Model. The session was very interactive and participants were educated upon setting up a successful Business Model.

A very warm morning to all the participants present in today's event on "HOW TO PLAN FOR START-UPS, ADDRESSING LEGAL AND ETHICAL ISSUES" organized and presented by Sir M Visvesvaraya Institute of Technology under the banner of Institute Innovation Council – IIC an initiative by MHRD.

On behalf of the Management Sri KET, Principal and IIC Chair Dr. V. R. Manjunath, President – IIC Dr. Supriya V. G., Professor, Dept. of ECE, Vice President – IIC Dr. H. G. Nagendra, Professor and Head, Dept. of BT, IIC members Dr. Vani Priya Ch., Associate Professor, Dept. of ISE, Dr. Sushila Shidnal, Assistant Professor, Dept. of CSE and myself Dr. Pallavi R., Associate Professor, Dept. of CSE,

I cordially invite our resource persons

Mr. Gautam Khurana Co-Founder & CTO @ SenseLoafTechnologies and

Mr. Prakhar Agarwal Co-Founder & CEO @ SenseLoafTechnologies

It is indeed our privilege to have you both who are also alumni from CSE and Mechanical departments amongst us today. It is always a proud moment to see our students achieving heights professionally and then giving back their experience through talks to their juniors at such gatherings.

On behalf of IIC team I would like to declare the event open by quoting that "It's not about ideas. It's always about making ideas happen" which is the essence of today's workshop.

Let me introduce our resource person to the audience.

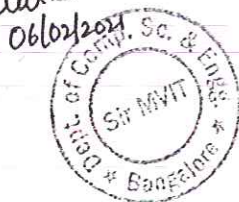

Mr. Gautam Khurana after completing his under graduate, worked with multiple startups and MNCs in e-commerce, telecom and HRTech space etc. He has to his credit about 2.5yrs of experience as software developer where he mostly was into coding backends using C++, Python and 5yrs of experience as Data Scientist where he used ML and NLP to develop solutions related to delivery time prediction, order management, information extraction, recommendations etc.

Gautam founded Senseloaf Technologies in the year 2018 along with another MVITian Prakhar Agrawal (a student of mechanical 2014 batch), where they build

PROFILE OF RESOURCE PERSONS: AS GIVEN THROUGH

WHATSAPP

Pallavi

Artificial Intelligence (AI) based Talent Acquisition and Management platform which help companies to find, engage and retain the right talent.

Gautam leads the technology and product development and Prakhar the executive section. Together they develop in-house NLP engine to read and extract information from Resumes and automatically match them with job descriptions or vice-versa based on custom parameters helping industry to shift from keyword based search mechanism to context based recommendations.

As part of building their startup, they enriched their experience working across whole stack of product development/ management cycle and raising business around the same.

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY

REPORT ON

**Workshop: “How to Plan for Start-Ups, Addressing Legal and Ethical Issues”- by Mr. Gautam Khurana, Co-Founder & CTO
@SenseLoafTechnogies and Mr. Prakhar Agarwal, Co-Founder & CEO
@SenseLoafTechnogies**

(6th February, 2021)

Objective:

The objective of the program is to encourage students and faculty the need of Start-Ups, How to realize their dreams of owning one and the legal and ethical issues related to Start-Ups.

Benefits of the Program:

- Students and faculty were motivated by listening to the resource persons' journey as Co-Founders on how they realized their dream of college days to actually developing a Private Organization called SENSELOAF.
- A relative Case Study on how Sticky Notes were accidentally innovated actually grabbed the participants.
- The participants also were exposed to the fact and importance of Intellectual Property Rights while discussing about the legal issues.
- The essence of the program was to understand the phrase “It’s not about ideas. It’s always about making ideas happen”

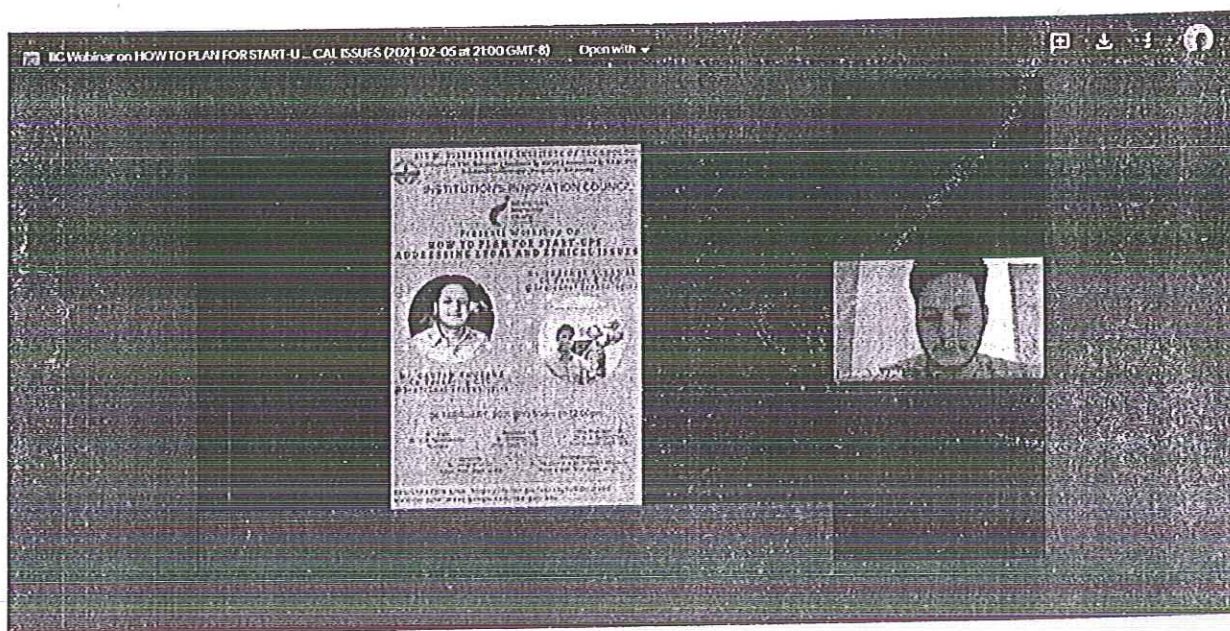

A workshop “How to Plan for Start-Ups, addressing legal and ethical issues” – was conducted by Institution’s Innovation Council – IIC of Sir M. Visvesvaraya Institute of Technology on 6th February, 2021. There were around 164 registered participants including faculties, research scholars and students. Mr. Gautam Khurana and Mr. Prakhar Agarwal, Alumni from department of Computer Science Engineering and Mechanical Engineering and renowned Co-Founders of SENSELOAF were the resource persons for the workshop. They shared their experience on being the Co-Founders of a Private Firm; the journey which lead to be successful Entrepreneurs, the days when they dreamed of the success achieved and soon. While presenting their journey,

they emphasized on the importance of Intellectual Property Rights, its benefits and legal issues involved. They are said that the market is wide open to creativity but uniqueness is always appreciated. Right goal, right focus, incubation center, enough amount of hard work, right selection of mentors, investors etc. can lead to the possible goal of realizing on owning a Start-Up. Their case study on the accidental invention of **Sticky Notes** added flavor to the concept of the workshop. They were more than happy to guide the budding Entrepreneurs if any through internships. The session ended with an interactive questionnaire and vote of thanks.

Internship Activity Coordinator – IIC: Dr. Pallavi R., Associate Professor, Dept. of CSE
Departmental Coordinator – IIC: Dr. Sushila Shidnal, Assistant Professor, Dept. of CSE

Good morning gaut... 12:02 PM

Good morning mam, apologize for late reply. I will let you know later by the Topic looks fine but there can be some other basic one from students on how to get as founder, what are the initial things to focus on, around market research, or is it safe to share your ideas with different people, legalities such as Building IIS and securities comes later later in the stages. I suggest let topic be more general how to plan for startup.

Thank you for your reply gautam...the topic is given by MHFD itself...need to go with it 12:02 PM

HOW TO PLAN FOR START-UPS, ADDRESSING LEGAL AND ETHICAL ISSUES

Feedback Form : How to plan for start ups, addressing legal and ethical issues

Session By:

Mr. Prakhar Agrawal

Co-Founder & CEO

@SenseLoaf Technologies

Mr. Gautam Khurana

Co-Founder & CTO

@SenseLoaf Technologies

Date & Time:

February 06, 2021

10:30 AM Onwards

Organized By:

Institution's Innovation Council

Sir M. Visvesvaraya Institute Of Technology Bangalore

* Required

1. Email address *

2. Full Name Of The Participant *

3. Name Of The Institute (Full Form) *

4. Department *

5. Contact Number *

6. Designation *

Mark only one oval.

- ☐ Professor
- ☐ Associate Professor
- ☐ Assistant Professor
- ☐ Student
- ☐ Other

7. 1. The Session delivered the information expected to receive *

Mark only one oval.

- ☐ Strongly Agree
- ☐ Agree
- ☐ Neutral

8. 2. Expert Speaker was able to create interest in the topic *

Mark only one oval.

- ☐ Strongly Agree
- ☐ Agree
- ☐ Neutral

9. 3. Which Session contents convinced you the most *

Mark only one oval.

- ☐ General- How to Plan & Execute a Start-Up
- ☐ Legal Issues regarding Start-Up
- ☐ Ethics involved in Start-Up

10. 4, This talk inspired me to think out of the box *

Mark only one oval.

☐ Strongly Agree

☐ Agree

☐ Neutral

11. 5. What are your key takeaways from this webinar (Any Feedback) *

12. 6. Overall Feedback **

Mark only one oval.

☐ Excellent

☐ Very Good

☐ Good

☐ Average

To,
The Principal,
Sir MVIT.

Through,
The HOD, Department of ECE,
Sir MVIT.

Respected Sir,

Sub: Permission to conduct Three- days Student Development Program(Webinar) on "Android App Development using IOT" Reg.,

With reference to the above subject, it is to bring to your kind notice that the Department of ECE, has planned to conduct a three days Student development program(Webinar) in association with Institution's Innovation Council(Ministry of HRD Initiative) on **Android App Development using IOT** "It is expected that the students from various colleges from different states are expected to participate in the workshop. This will help the students to enhance their knowledge on the niche areas and making them industry ready no sooner they graduate.

In this regard, I request you to kindly permit us to conduct the program from December 25th -December 27th, 2020. The expected number of participants will be fifty.

The resource personnel for this webinar are Kotresh Mundrugi, Director , Indian Tech-Keys, Bengaluru and Shrenika R M, Technical Support Engineer, Indian Tech-Keys, Bengaluru , I request you to kindly support us by giving the permission to conduct this webinar.

Thanking you,
Yours faithfully

Sasmita Mohapatra

3 Days Student Development Program

On

"Android App Development using IOT"

REPORT

The department of Electronics & Communication Engineering, conducted three days SDP on ***"Android App Development using IOT"*** on 25th -27th Dec 2020.

The Invitation for SDP was sent to 3th semester ECE and TCE students. Total numbers of participant were 28 in number. The registration started on 20th Dec 2020 online.

Inauguration started at 2.00 PM HOD, Dr. R. Sundaraguru, presided the inaugural function accompanied by Dr Sasmita Mahopatra, Associate professor, Dept. of ECE. Dr. Sasmita Mahopatra, Associate professor, Dept. of ECE, welcomed the Resource person for the program Mr. Kotresh and the participants. Dr. R. Sundaraguru, HOD, Dept. of ECE gave his presidential remarks and highlighted the importance of App Development and excessive improvements in IOT. Inaugural function ended with vote of thanks.

On the first day, Mr. Kotresh resource person started the first session at 2.15 pm with introduction to Android OS Architecture, Introduction to App development using Modular based Approach using MIT App Inventor. Also hands on training were provided for Exercises on user interfaces like buttons, textboxes integration with App.

Second day started By Ms. Shrenika with hands on Exposure to Layout Design, Media Elements like Camera, Microphone, Sounds and Media Player of Android OS. Exercise projects for social connectivity options like Contacts, Phone call and SMS applications were implemented.

On Third day of the program Exposure to Sensors like Clock, Gyroscope, Pedometer, Location Sensor and other type Sensors of Android OS was given. Exercise projects for social connectivity option Contacts Phone call and SMS application Development Exposure to Local and Global Storage of data and fetching of the same in Real time using IoT Development of Google Map Application using Maps and Live tracking of the location using IoT were implemented using the App.

On the third day, after the valedictory, feedback was received from the participants regarding the SDP. All three sessions were very informative, also queries raised from the participants were clarified.

The three days SDP was conducted successfully.

Course Objectives

The main objective of this program is to introduce Android App development for different applications. Here participants will explore to on board sensor and its application in building smart applications and about the IoT.

Course Outcomes

- Concept to Product development skill.
- Brief explanation for Android OS architecture.
- Exposure to methodology of Android App development.
- On board sensors introduction and integration of those sensors in Android App.
- Communication establishment for data sending thorough SMS.
- Android App Development Live tracking of the location using IoT.
- Speech Recognition System Design using Android App.

Course Content

Session 1

Modules	Heading	Date and Time	Hours
Module-1 A	Android OS Architecture Introduction, Introduction to App development using Modular based Approach using MIT App Inventor.	25/12/2020 2.00 PM to 5.00 PM	2 Hrs
	Exercises on user interfaces like buttons, text boxes integration with App		1 Hr

Session 2

Modules	Heading	Date and Time	Hours
Module-1 B	Exposure to Layout Design, Media Elements like Camera, Microphone , Sounds and Media Player of Android OS	26/12/2020 5.00 PM to 8.00 PM	1Hr
	Exercise projects for social connectivity options like Contacts, Phone call and SMS applications		2 Hrs

Session 3

Modules	Heading	Date and Time	Hours
Module-2A	Exposure to Sensors like Clock, Gyroscope, Pedometer, Location Sensor and other type Sensors of Android OS.	27/12/2020 10.00 AM to 1.00 PM	2 Hrs
	Exercise projects for social connectivity option Contacts Phone call and SMS application Development		1 Hr

Session 4

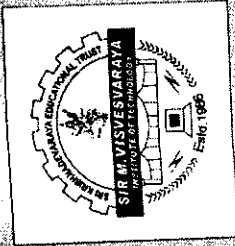

Modules	Heading	Date and Time	Hours
Module-2B	Exposure to Local and Global Storage of data and fetching of the same in Real time using IoT	27/12/2020 2.00 PM to 5.00 PM	2 Hrs
	Development of Google Map Application using Maps and Live tracking of the location using IoT		1 Hr

Respected Sir,

Sub: Conduction of Webinar on **"Web Scrapping with Python."**

With regard to the above subject, we would like to bring to your kind notice that the subject Application Development using Python (18CS55) has to be taught with the detail concepts of **Web Scrapping** and all the library modules of it. This is identified as a major gap in the course design which was never addressed in the course for training the students, with this view we would like to organize a webinar, which also maps to PO-5 and PO-12. It would be helpful to carry out their final year project as well. So we seek your permission to conduct this workshop.

Thanking You,

Faculty Co-Ordinator's

Mrs.Savitha P

Mrs.M G Kousar

Mrs.Monika Rani H G

Mrs.Supriya H S

REPORT

Webinar on "Web Scraping with Python" organized on 24th December 2020 through online platform Google meet, 100 students were participated from CSE & ISE. The speech is delivered by the Resource person Mr. Nithin Kumar T , Senior Business Intelligence Analyst, in Dell Technologies, Dublin Ireland.

Mrs. Monika rani H G, Asst. Professor from Dept. of CSE delivered the welcome speech & introduced the speakers to the participants then the session is handed over to Mr. Nithin Kumar T

Mr. Nithin Kumar T covered the following concepts: Applications of Python like Web Scraping using beautiful soup module with hands-on sessions

Further the session is continued with participant's interaction and it turned to be very interesting. Participants have clarified their doubts and shared their feedback.

Finally, Session is concluded with vote of thanks by Mrs. Supriya H S, Asst. Professor from Dept. of CSE.

Nandur Kesaratagi 1st stage Kalaburgi District and Upgradation of storm water drain & balance roads & drain at Naubad Housing, Naubad Auto Nagar & Naubad Industrial Area at Bidar District

Project Cost: 17.68 Cr

Period: 2019-20

Name of the Client: Karnataka Industrial Area Development Board

Title of Position Held: Team Leader

Responsibilities: : Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the quality of materials used in construction and work execution. Assess the adequacy of man, materials, machineries at work site. Inspect and certify each and every work executed at work site. Inform client regarding work progress and contractors performance. Propose and recommend with a detailed report to the Client, the changes in the quantities of the item in the contract agreement or the extra items and changes in the scope of work if any, including its effect on the contract amount and the project completion. Supervise each and every work executed, verify quantities and undertake scrutiny of measurements and certify the bill for making payment. To conduct frequent meetings at site location and train labors regarding safety measures.

29. Name of the Project: PROVIDING PROJECT MANAGEMENT CONSULTANCY FOR SHDP

Project Cost: 123.48 Cr

Period: 2019-20

Name of the Client: KPWD

Title of Position Held: Team Leader

Responsibilities: Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the quality of materials used in construction and work execution. Assess the adequacy of man, materials, machineries at work site. Inspect and certify each and every work executed at work site. Inform client regarding work progress and contractors performance. Propose and recommend with a detailed report to the Client, the changes in the quantities of the item in the contract agreement or the extra items and changes in the scope of work if any, including its effect on the contract amount and the project completion. Supervise each and every work executed, verify quantities and undertake scrutiny of measurements and certify the bill for making payment. To conduct frequent meetings at site location and train labors regarding safety measures.

31. Name of the Project: Providing Consultancy Services for the Preparation of Detailed Project Reports (DPRs) for SHDP Phase-4 works in Shivamogga District, Karnataka

Project Cost: 224.80 Cr

Period: 2019-20

Name of the Client: KPWD

Title of Position Held: Team Leader

Responsibilities: : Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the quality of materials used in construction and work execution. Assess the adequacy of man, materials, and machineries at work site. To conduct frequent meetings at site location and train labors regarding safety measures.

33. **Name of the Project:** Consulting Services For Quality Monitoring
Services For Road Infrastructure Works In Hoskore Bangalore Rural District.
Project Cost: 5.48 Cr
Period: 2019-20
Name of the Client: Karnataka Industrial Area Development Board
Title of Position Held: Team Leader
Responsibilities: : Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the quality of materials used in construction and work execution. Assess the adequacy of man, materials, machineries at work site. Inspect and certify each and every work executed at work site. Inform client regarding work progress and contractors performance. Propose and recommend with a detailed report to the Client, the changes in the quantities of the item in the contract agreement or the extra items and changes in the scope of work if any, including its effect on the contract amount and the project completion. Supervise each and every work executed, verify quantities and undertake scrutiny of measurements and certify the bill for making payment. To conduct frequent meetings at site location and train labors regarding safety measures.
34. **Name of the Project:** Consulting Services for Proof Checking of Design, Project Management Consultancy for the work of Construction of RCC side drains for Road no 1 & 2 and Road no. 2,3,4,5,6,8,9,10,11,12,13 at Kapnoor 1st and 2nd Stage Industrial Area, Resurfacing of existing road in Nandur Kesaratagi 1st stage Kalaburgi District and Upgradation of storm water drain & balance roads & drain at Naubad Housing, Naubad Auto Nagar & Naubad Industrial Area at Bidar District
Project Cost: 10.14 Cr
Period: 2020
Name of the Client: Karnataka Industrial Area Development Board
Title of Position Held: Team Leader
Responsibilities: Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the quality of materials used in construction and work execution. Assess the adequacy of man, materials, machineries at work site. Inspect and certify each and every work executed at work site. Inform client regarding work progress and contractors performance. Propose and recommend with a detailed report to the Client, the changes in the quantities of the item in the contract agreement or the extra items and changes in the scope of work if any, including its effect on the contract amount and the project completion. Supervise each and every work executed, verify quantities and undertake scrutiny of measurements and certify the bill for making payment. To conduct frequent meetings at site location and train labors regarding safety measures.
35. **Name of the Project:** Preparation of Detailed Project Report (DPR) for Road Works under PMGSY-III under KRRDA
Project Cost: 87.6 Cr
Period: 2020
Name of the Client: Karnataka Rural Road Development Authority
Title of Position Held: Team Leader
Responsibilities: Planning and preparing work schedule, arranging & attending meetings with client, reporting progress of the work to the client, reporting progress of the work to the client, managing the entire work as per work plan, managing the entire work as per work plan. Inspect and certify the

quality of materials used in construction and work execution. Assess the adequacy of man, materials, machineries at work site. Inspect and certify each and every work executed at work site. Inform client regarding work progress and contractors performance. REPORT ON
Student Development Program
“Modern Surveying”
CONDUCTED ON 8TH OF DECEMBER, 2020

Surveying or land surveying is the technique, profession, and science of determining the terrestrial or three dimensional positions of points and the distances and angles between them.

Revolutionary changes have taken place in last few years in surveying instruments that are used for measuring level differences, distances and angles. This has become possible because of introduction of electronics in these measurements. With rapid advancements in the technology and availability of cheaper and innovative electronic components, these instruments have become affordable and easy to use.

This Student Development Program was organized by Department of Civil Engineering Sir MVIT on 08/12/2020, for the students, staffs, research scholars and others working in the field of Civil Engineering.

The Program outlined developments in the technology for various survey measurements such as digital levels, electronic distance measuring instruments, electronic theodolites, total stations, GPS etc.

The program was conducted over Google Meet Platform, and had 80 active participants.

The program started at 12.00 pm IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Dr. Shivanna S, and Dr. Ravi Kumar H, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department.

Dr. Ravi Kumar H, Associate Professor, introduced and welcomed the speaker to start with his presentation.

Participants showed active participation by asking questions during the question & answer session, the speaker, Mr. Sai Baba Ankala, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mr. KVR Prasad, Associate Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

REPORT ON
Student Development Program
"Modern Surveying"

CONDUCTED ON 8TH OF DECEMBER, 2020

Surveying or land surveying is the technique, profession, and science of determining the terrestrial or three dimensional positions of points and the distances and angles between them.

Revolutionary changes have taken place in last few years in surveying instruments that are used for measuring level differences, distances and angles. This has become possible because of introduction of electronics in these measurements. With rapid advancements in the technology and availability of cheaper and innovative electronic components, these instruments have become affordable and easy to use.

This Student Development Program was organized by Department of Civil Engineering Sir MVIT on 08/12/2020, for the students, staffs, research scholars and others working in the field of Civil Engineering.

The Program outlined developments in the technology for various survey measurements such as digital levels, electronic distance measuring instruments, electronic theodolites, total stations, GPS etc.

The program was conducted over Google Meet Platform, and had 80 active participants.

The program started at 12.00 pm IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Dr. Shivanna S, and Dr. Ravi Kumar H, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department.

Dr. Ravi Kumar H, Associate Professor, introduced and welcomed the speaker to start with his presentation.

Participants showed active participation by asking questions during the question & answer session, the speaker, Mr. Sai Baba Ankala, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mr. KVR Prasad, Associate Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

WEBINAR

CHALLENGES IN CONSTRUCTION OF TALL BRIDGES IN THE NORTH-EAST

DECEMBER 07, 2020

Department of Civil Engineering
Sir MVIT, Bangalore.

WEBINAR

Subtitle Text Here**CHALLENGES IN CONSTRUCTION OF TALL BRIDGES IN THE NORTH-EAST**

Organized by Department of Civil Engineering, Sir MVIT, Bangalore.

Speaker – Mr. SAI BABA ANKALA, ME, MBA, IRSE, PhD (*)

Chief Engineer

Indian Railways (Govt. of India)

Principal – Dr. V R Manjunath

Convener – Mr. H P Mahendra Babu, HOD, Department of Civil Engineering.

Coordinators

- Mr. K V R Prasad, Associate Professor, Department of Civil Engineering
- Dr. Shivanna S, Associate Professor, Department of Civil Engineering
- Dr. Ravi Kumar H, Associate Professor, Department of Civil Engineering
- Mrs. Anitha J, Assistant Professor, Department of Civil Engineering

SIR M. VISVESVARAYA INSTITUTE OF TECHNOLOGY
Affiliated to VTU, Belagavi | Approved by AICTE, New Delhi / Govt. of Karnataka | Accredited by NAAC UGC

**DEPARTMENT OF CIVIL ENGINEERING
PRESENTS**

A WEBINAR ON

CHALLENGES IN CONSTRUCTION OF TALL BRIDGES IN THE NORTHEAST

By: SAI BABA ANKALA, ME, MBA, IRSE, (PhD)
Chief Engineer, Indian Railways (Govt. of India)

Scan here to join..!

**DECEMBER 7TH 2020
10:00 AM - 11:30 AM**

Registration URL: <https://forms.gle/d6ceuKRwueWzfhs16>

Join the meet : <https://meet.google.com/zgr-zoip-bif>

**E-Certificates
will be
issued....!!**

Convener

Mr H P Mahendra Babu
Prof. & Head of Department

Dr V R Manjunath
Principal

Co-ordinator(s)

Mr K V R Prasad
Dr Shivanna S
Dr Ravi Kumar H
Mrs Anitha J

BIO DATA

SAI BABA ANKALA, ME, MBA, IRSE, PhD (*)

Chief Engineer

Indian Railways (Govt. of India)

Education:

B.Tech in Civil Engineering from SVU College of Engineering, Tirupati

M.E. in Structural Engineering from Indian Institute of Science, Bangalore

MBA in Information Technology from JNTU, Hyderabad

Ph.D (*) in Infrastructure Management from IIT, Guwahati

Academic achievements:

Rank holder and Gold medalist in UG and PG

Topper in GATE (99.31%), IES (Indian Engineering Services)/ IRSE & APPSC

Fellow member in technical bodies like IEI, IIBE, IPWE, ASCE, DFI

Professional achievements:

Having 35 years' experience in Major infra projects of Railways, Metrorail, Multi-modal transport systems and Mega-bridges from design to construction.

Major projects handled:

- India's first Cable-Stayed Road-Over-Bridge at Bangalore
- 1250km new railway lines in India
- 5250 major RCC/ PSC/ steel bridges for high density railway loading
- 245 Road bridges including Road-Over Bridges/ Flyovers and
- Metrorail projects of Bangalore, Hyderabad and Trivandrum
- India's first double-decker (metro-cum-highway) integral PSC flyover
- World's Tallest Rail Bridge (141m) and Longest tunnel in Northeast (10.5km)
- Five International rail projects from concept to commissioning
- Innovations in sustainable design and construction of major bridges
- Design co-ordination of Bogibheel bridge (longest rail-cum-road bridge)

Awards & Accolades:

- Prime Minister award for innovative idea of "Integrated Green Logistic Parks"
- International award from Bentley Systems for design of tallest rail bridge
- Railway awards for technical excellence and innovation in construction

- Delivered over 470 expert lectures in Conferences including 54 International
- “Mother Theresa” award for contribution towards nation integration
- “Abdul Kalam Award” for contribution to student community
- Awards for Sustainable Design from institutions like IITs, ACCE, IIBE etc
- “Railsys Magazine” award for contribution towards sustainable infrastructure

Success mantra: “CHALLENGES ARE THE MOTHER OF INNOVATION”

Ambition: “Build Sustainable Infrastructure to make the planet a safer and healthier place for generations to come”

REPORT ON

Webinar

“Challenges in construction of tall bridges in the North-East”

CONDUCTED ON 7TH OF DECEMBER, 2020

India, a country with a total area of approx. 3.2 million sq. km. has around 23 % of its area covered with densely forested, thinly populated hills. Human habitation and Vegetation spreads to altitudes as high as 14000 to 16000 feet above Mean Sea Level.

Hilly region pose unique problem for bridge construction. In a restricted hilly area itself climatic conditions, geological features and hydrological parameters vary considerably. Keeping in view the bridge site and various constraints, type of bridge and method of construction are to be selected carefully for safe, economical and successful completion of bridge construction.

Deep gorges, rivers with boulder beds, extremely low temperature condition, high winds, landslide etc. in hilly regions require special attention to complete the activities of bridge planning and construction in a systematic way.

While Tall bridges offer a ease of travelling comfort, the construction process involves many complex problems that have to be addressed on day to day basis, especially in the topography that North-East of India offers.

This webinar was organized by Department of Civil Engineering Sir MVIT on 07/12/2020, for the students, staffs, research scholars and others working in the field of Civil Engineering,

The program was conducted over Google Meet Platform, and had 115 active participants.

The program started at 10.00 am IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Dr. Shivanna S, and Dr. Ravi Kumar H, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department.

Dr. Ravi Kumar H, Associate Professor, introduced and welcomed the speaker to start with his presentation.

Mr. Sai Baba Ankala, Chief Engineer, Indian railways (GOI), gave an elusive talk on the various challenges that are faced in the construction of tall bridges in the North-East. He spoke elaborately on various issues starting from transport of the materials, managing labors, challenges due to topography, weather etc.

Participants showed active participation by asking questions during the question & answer session, the speaker, Mr. Sai Baba Ankala, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mr. KVR Prasad, Associate Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

Registration Form - Challenges in Construction of Tall Bridges in the North-East. (Responses)

REPORT ON

Webinar

“Challenges in construction of tall bridges in the North-East”

CONDUCTED ON 7TH OF DECEMBER, 2020

India, a country with a total area of approx. 3.2 million sq. km. has around 23 % of its area covered with densely forested, thinly populated hills. Human habitation and Vegetation spreads to altitudes as high as 14000 to 16000 feet above Mean Sea Level.

Hilly region pose unique problem for bridge construction. In a restricted hilly area itself climatic conditions, geological features and hydrological parameters vary considerably. Keeping in view the bridge site and various constraints, type of bridge and method of construction are to be selected carefully for safe, economical and successful completion of bridge construction.

Deep gorges, rivers with boulder beds, extremely low temperature condition, high winds, landslide etc. in hilly regions require special attention to complete the activities of bridge planning and construction in a systematic way.

While Tall bridges offer a ease of travelling comfort, the construction process involves many complex problems that have to be addressed on day to day basis, especially in the topography that North-East of India offers.

This webinar was organized by Department of Civil Engineering Sir MVIT on 07/12/2020, for the students, staffs, research scholars and others working in the field of Civil Engineering.

The program was conducted over Google Meet Platform, and had 115 active participants.

The program started at 10.00 am IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Dr. Shivanna S, and Dr. Ravi Kumar H, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department.

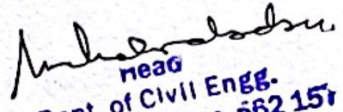

Dr. Ravi Kumar H, Associate Professor, introduced and welcomed the speaker to start with his presentation.

Mr. Sai Baba Ankala, Chief Engineer, Indian railways (GOI), gave an elusive talk on the various challenges that are faced in the construction of tall bridges in the North-East. He spoke elaborately on various issues starting from transport of the materials, managing labors, challenges due to topography, weather etc.

Participants showed active participation by asking questions during the question & answer session, the speaker, Mr. Sai Baba Ankala, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mr. KVR Prasad, Associate Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

REPORT ON

Webinar : “My Story”- A Motivational Session by Successful Innovator (5th December 2020)

Objective:

The objective of the program is to encourage Students / Faculty to be an Innovator, through proper idea generation, implementation, right execution and face challenges.

Benefits of the Program:

- Students and Faculty were motivated by listening to the Resource person's journey as a cofounder and CEO of Acreage Inc. , Ontario Canada
- It also inspired many of the participants to think of being job providers than job seekers.
- It also created an awareness about the usage of Block chain technology in real estate and how technology and business can be interrelated.
- The students were inspired by the way an alumni of Sir MVIT is a successful person in Canada

A webinar “My Story” – A Motivational Session by Successful Innovator was conducted by Institution's Innovation Council, Sir M Visvesvaraya Institute of Technology on 5th December 2020. There were more than 300 registered participants including both faculties and students. Mrs. Shaily Srivastava , CEO and cofounder, Acreage Inc., Ontario Canada was the resource person for this webinar. She shared her experience of becoming a successful CEO from a being a Engineering graduate with Management degree. She expressed the struggles she has to overcome in establishing her startup in Canada and also the challenges she had to face to have a work life balance. She also emphasized on accepting the failures and going ahead with our goal and achieving the target. Through this webinar, she gave an insight into the various phases involved in establishing a start-up, having an innovative idea in hand. The session also had an interactive question answer session

Introduction to BIM - SDP

DECEMBER 05, 2020

Department of Civil Engineering
Sir MVIT, Bangalore.

To,
The HOD,
Department of Civil Engineering
Sir MVIT,
Bangalore – 562157

Dated: 1st Dec 2020

Sub: Proposal for Conducting SDP on – Introduction to BIM.

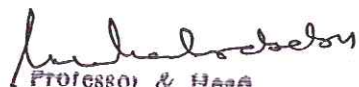

Respected Sir,

With reference to the above subject, I would like to propose to conduct a SDP on “**Introduction to BIM**”, on 5th Dec, 2020. In this regard, we request your permission to conduct this event in our Department. This event will help our students in learning about the application of Building Information Modelling in Civil Engineering.

This program will help us to address the gaps in our Program Outcomes (PO1, PO5, PO6, PO9, PO12)

Thanking you,
Yours faithfully,

Mr. K. V. R. Prasad
Associate Professor
Sir MVIT
Bengaluru

Professor & Head
Department of Civil Engineering
M. V. V. Institute of Technology
Bangalore-562 157

STUDENT DEVELOPMENT PROGRAM

INTRODUCTION TO BIM

Organized by Department of Civil Engineering, Sir MVIT, Bangalore.

Speaker – Mr. Bharat Anand H.

Principal – Dr. V R Manjunath

Convener – Mr. H P Mahendra Babu, HOD, Department of Civil Engineering.

Coordinators

- MR. KVR Prasad, Associate Professor, Department of Civil Engineering
- Mrs. Pradeepa S, Assistant Professor, Department of Civil Engineering
- Mrs. Anitha J, Assistant Professor, Department of Civil Engineering
- Mrs. N Tamil Selvi, Assistant Professor, Department of Civil Engineering

DECEMBER 05, 2020

10.30 am – 11.30 am

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY

AFFILIATED TO VTU, BELAGAVI | APPROVED BY AICTE, NEW DELHI/GOVT. OF KARNATAKA | ACCREDITED BY NMAC UGC

**REPORT ON
Student Development Program
“INTRODUCTION TO BIM”**

CONDUCTED ON 5TH OF DECEMBER, 2020

According to the United Nations, the global population is projected to reach 9.8 billion by 2050. The global architecture, engineering, and construction (AEC) industry is responsible for supporting this growth by developing sustainable infrastructure, and maintaining and restoring existing buildings and developments. This obligation is a tall order and requires smarter, and more efficient ways to design and build – not just to keep up with the ever-growing population, but for the overall quality and resilience of future developments.

Building Information Modelling is the perfect solution to this. It is used to design and document building and infrastructure designs, and helps stakeholders understand what the finished product will be – highlighting key steps of the construction process along the way. Additionally, it is a great way to ensure all parties involved are kept up-to-date with the project's progress.

To help our students gain better knowledge and understanding with the concept of BIM, Student Development Program was organized by Department of Civil Engineering SIR MVIT on 05-12-2020.

The program was conducted over Google Meet Platform, and had 89 active participants.

The program started at 10.30 am IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Mrs. Pradeepa S, and Mrs. Anitha J, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, who spoke on importance of BIM and how it would help our students to upgrade their skills.

Mrs. Pradeepa S, Assistant Professor, introduced and welcomed the speaker to start with his presentation.

Mr. Bharat Anand H, Project Coordinator and BIM specialist at GLEEDS Consulting (I), Pvt. Ltd. gave an elusive talk on Building Information Modeling. He described how it is a one-stop project management system for design & construction industry.

The speaker spoke elaborately about, the process of using information rich 3-D model as central database to create, check & communicate project information among all stakeholders throughout life cycle of the project under consideration, which helps us in having a better control during the project.

He also addressed on how Building Information Modeling is a shift from the traditional linear project work-flow. 3Dimensional models help communicate, access and manage the project information both graphically and also in spreadsheet formats helping to develop higher quality projects.

Participants showed active participation by asking questions during the question & answer session, the speaker, Mr. Bharat Anand H, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mr. KVR Prasad, Associate Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

Building Information Modelling (BIM) is a process that involves creating and managing digital models of buildings and infrastructure projects. BIM is becoming increasingly important in the construction industry, and it is essential for students to develop the necessary skills and knowledge to be able to use BIM effectively.

Program Overview: The BIM Student Development Program provided students with the necessary skills and knowledge to effectively use BIM in their future careers. The program will cover the following topics:

1. Introduction to BIM
2. BIM Fundamentals
3. BIM Tools
4. BIM Applications
5. BIM Project Management

The BIM Student Development Program addressed several program outcomes related to the use of BIM in the construction industry. Here are some of the program outcomes that the BIM Student Development Program aims to address:

Sl. No.	Outcomes	POs addressed
1	Knowledge and understanding of BIM principles and concepts: The program provided students with a comprehensive understanding of BIM principles and concepts, including the creation and management of digital models, data management, and collaboration.	PO1, PO5, PO6, PO9, PO12
2	Understanding of the impact of BIM on the construction industry: The program aims to provide students with an understanding of the impact of BIM on the construction industry, including its benefits and potential drawbacks.	

By addressing these program outcomes, the BIM Student Development Program aims to prepare students for careers in the construction industry and equip them with the skills and knowledge they need to use BIM effectively in their future work.

DEPARTMENT OF CIVIL ENGINEERING

Certificate of Participation

This is to Certify that Mr./Ms. {{FULL NAME}}
has participated in the SDP on "Introduction to BIM", delivered by
Mr. Bharat Anand H, Project Coordinator & BIM specialist,
Gleeds Consulting(I), Pvt. Ltd. Organized by Department of Civil Engineering,
on 5th December, 2020.

This is an electronically generated certificate and does not require any signature.

To,
HOD
CSE Department
Sir MVIT

Date: 20-11-2020

Respected Sir,

Sub: Conduction of Webinar on **"Database Programming using Hive and MongoDB."**

With regard to the above subject, we would like to bring to your kind notice that the subject Web Technology and its Applications (17CS71) has to be taught with few concepts like **Hive, MongoDB**, this is one of the gap identified in the course design which was never addressed in the course for training the students, with this view we would like to organize a webinar, which maps to PO-5 and PO-12. It would also be helpful to carry out their final year project. So we seek your permission to conduct this workshop.

Thanking You,

Faculty Co-Ordinator's

Mrs.Savitha P

Mrs.M G Kousar

Mrs.Monika Rani H G

Mr.Suraj Kumar B P

Department of Computer Science and Engineering

REPORT

Webinar on “**DATABASE PROGRAMMING USING HIVE AND MONGO DB**” organized on 27th November 2020 through online platform Google meet, 100+ students were participated from different streams. The speech is delivered by the Resource person Mr. Manjunath H C, Senior Solutions Engineer, PEGA Systems.

Mrs. M G Kousar, Asst. Professor from Dept. of CSE delivered the welcome speech & introduced the speakers to the participants then the session is handed over to Mr. Manjunath H C.

Mr. Manjunath H C covered the following concepts: Brief Introduction of Database, Hive, MongoDB and also installation procedure and how to use it and he also demonstrated usage of Hive and MongoDB with an example.

Further the session is continued with participants interaction and it turned to be very interesting. Participants have clarified their doubts and shared their feedback.

Finally, Session is concluded with vote of thanks by Mr. Suraj Kumar B P Asst. Professor from Dept. of CSE.

Dear Sir,

It gives me a pleasure to invite you as a Resource Person to address our students in the webinar on "Database Programming using Hive and Mongo DB". Your thoughts would enable our students to gain knowledge from your expertise and experience.

On behalf of Management ,Principal and Department of CSE ,SIR MVIT.I kindly request you to accept our invitation and make it for the webinar on 27th November 2020.

Thanks & Regards,

Kousar

Asst.Professor

Dept.of CSE

Sir MVIT

Bengaluru

1. 6+ years of teaching experience in computer science domain
2. 6+ years of development background in Business applications, including the development of data warehousing solutions using Hadoop ecosystems.
3. Experience in implementing data transformation and processing solutions (ETL) using Hadoop ecosystem tools and NoSQL databases such as Mongo DB, Cassandra, and HBase.
4. Published papers in SCI and Scopus indexed journals.
5. Currently working as a Big data Solutions Engineer in Pega Systems. Prior to Pegsysyems, I was associated with Infosys, hTRUNK, and NetApp.

Thanks and Regards,
Manju

INVITATION

Greetings from Sir M. Visvesvaraya Institute of Technology, Bengaluru.

We are happy to announce that the Department of Computer Science and Engineering, organizing a webinar (SDP) on "Database Programming using Hive and Mongo DB " on 27th November 2020.

Resource Person

Mr.Manjunath H C
Senior Solutions Engineer
PEGA Systems,Bengaluru

Timings: 2:30 pm to 3:30 pm

Registration Link:

<https://forms.gle/t29HRaacwZ5ZhD8X7>

WhatsApp link:

<https://chat.whatsapp.com/Fc1H1ehRNMq6KmWcsBOBbX>

Join the webinar through Google meet

Google meet link:

Feedback Form

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY
DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
DATABASE PROGRAMMING USING HIVE AND MONGO DB ON 27-11-2020

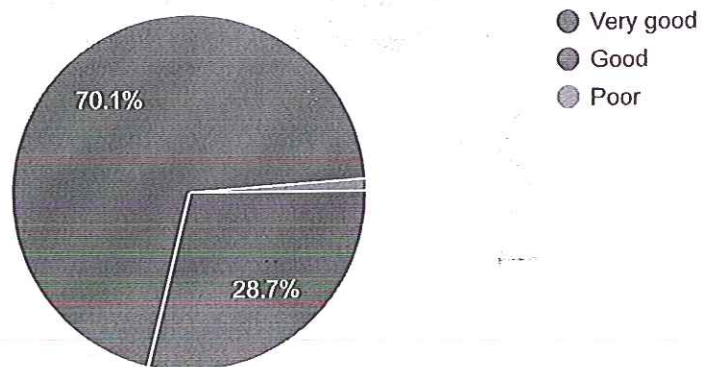

Email Address	Name	College	Department	The duration of the webinar was sufficient for the information covered.	Would you like to learn more about this topic?	Please rate the speaker's knowledge of the topic	How accurate was the session description? (1- Least to 5- Highest)	Please rate your overall experience (1- least to 5- Highest)	How did the session compare to your expectations?	Are you interested in participating in future webinar?

REC M Manjunatha H C is presenting

Hive

- Hive is an ETL and data warehouse tool on top of Hadoop ecosystem and used for processing structured and semi structured data
- Hive is a database present in Hadoop ecosystem performs DDL and DML operations
- It stores schema in a database and processed data into HDFS
- It provides SQL type language for querying called HiveQL or HQL
- It is fast, scalable, and extensible
- It is capable of analyzing large datasets stored in HDFS
- It supports user-defined functions (UDFs) where user can provide its functionality

REC M Manjunatha H C is presenting

Database

A database is a systematic collection of data. They support electronic storage and manipulation of data.

Hive

The Apache Hive data warehouse software facilitates reading, writing, and managing large datasets residing in distributed storage and queried using SQL syntax.

Mongo DB

Mongo DB is an open-source document database and leading NoSQL database. Mongo DB uses JSON-like documents with optional schema.

M Manjunatha H C

come in the traditional DBS with respect to nosql DBS, right? We store the data in document format. So basically see a high one mongoddb,

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

DEPARTMENT OF MATHEMATICS

THREE DAYS WEBINAR

ON

Application of Mathematics in Image Processing

Date: 23-25 November 2020 Time: 10.00am – 11.00am

Convenor

Dr. G C Bhanuprakash HOD, CSE

Dr. S K Uma HOD, Mathematics

Faculty coordinators

Dr. Sushila Shidnal

Dr. Savita Choudhary

Department of Computer Science

Report on the Webinar (SDP) on

“Application of Mathematics in Image Processing”

Date From 23- 25 November 2020

The event started by welcoming Principal Dr. V R manjunath, Convenors Dr. G C Bahnurprakash, HOD Computer science & Engineering Department and Dr. S K Uma, HOD Department of Mathematics, Coordinators Dr. Sushila Shidnal & Dr. Savita Choudhary, Speakers Dr Asha C S, Dr Supriya V G and Mr. Phanindar Ravi and all participants,. Ms. Gunpreet Kaur V A student introduced the Speaker to the audience.

First day session was conducted by Dr. Asha C S P G Department, Department of Mathematics, MES College, Malleshwaram, Bangalore. The resource person shared her knowledge of mathematics on concepts of “Fourier Transform, Discrete Fourier Transform, Cosine Transform and Discrete Cosine Transform.

Second day Dr. Supriya V G, Professor, ECE Department, Sir MVIT shared her insight into application of mathematics in image processing which covered most of the third module portion prescribed for Digital Image Processing for VII semester.

Third day Mr. Phanindar Ravi, Assistant Professor, Sir MVIT covered application of filters in image processing with simulation examples.

Overall 173 people participated in the event and the feedback received for the event is overwhelming.

The event concluded by closing speech by Convenor Dr. S K Uma and Coordinator Dr. Sushila Shidnal and vote of thanks by Ms Shreyoshee Mukherjee V B Student.

SIR M. VISVESVARAYA INSTITUTE OF TECHNOLOGY

Principal: Dr. V R Manjunath

Convenors: Dr. Bhanuprakash

Dr. S K Uma

Coordinators: Dr. Sushila Shidnal

Dr. Savita Choudhary

Department of Computer Science and Engineering

Date: 10-10-2020

To

HOD
CSE Department
Sir MVIT

Respected Madam,

Sub: Conduction of Webinar on "Fourier Transform and Cosine Transform"

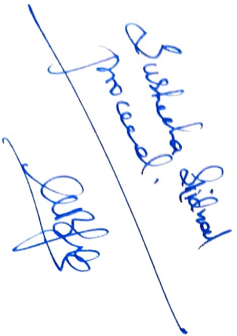

With regard to the above subject, I request you to accept our proposal to conduct webinar on Discrete Fourier transform and Discrete Cosine Transform. These topics have been taught in their first year syllabus and its application is included in their fourth year subject "Digital image processing". It would be helpful to carry out their final year project which will address few topics not covered in the syllabus. This workshop also helps students to have hands on session with modern tools and techniques.

Thanking You,

Yours Sincerely

Dr. Sushila Shidnal

Department of Computer Science and Engineering

Date: 15-10-2020

To

HOD
Maths Department
Sir MVT

Respected Madam,

Sub: Conduction of Webinar on “Fourier Transform and Cosine Transform”

With reference to the above subject, I request you to conduct bridge course on “**Discrete Fourier Transform and Discrete Cosine Transform**” for our final year students. **Digital image processing** is a subject which requires the knowledge of DFT and DCT. Without the proficiency in this topic students will not be able to understand the subject and concepts. This will also help them in the final year project which addresses PO5 - **Modern tool usage**. I request you to provide the suitable timeslot for scheduling the event.

Thanking You,

Yours Sincerely

Dr. G.C. Bhannuprakash

Greetings from Sir M. Visvesvaraya Institute of Technology, Bangalore.

We are happy to announce that the Department of Computer Science and Engineering and ashacsgowda@yahoo.co.in
in Department of Mathematics are jointly organizing a three-day webinar on " Application of Mathematics in Image
Processing" from 23rd November to 25 November 2020.
Resource Person

Tue, Nov 10, 2020 at 2:07 PM

Dear Prof. Mayuri K P,

It was pleasure talking to you today and to discuss about training for students lab courses which are part of their syllabus. As discussed, you are teaching them the lab courses virtually. IIT Bombay ST brings to you **E-Tutor** where students complete lab courses practically from their home with audio video tutor and become expert in it. Visvesvaraya Technological University organising SDP for students to enhance their skills. (Circular attached). You are from Computer Science & Engineering department, you can enroll your students for **C&C++, Drupal, Python, PHP&MySQL and SCILAB**. We have course for all department. For complete list of courses please check E-Brochure link.

Participants will get the **E-Certificate** after successful completion of this course.

Registration Links :

- C & C++ Registration Link
- Drupal Registration Link
- PYTHON Registration Link
- PHP&MySQL Registration Link
- SCILAB Registration Link

Last Date of Registration: **14th November, 2020**

Event start date: **17th November, 2020**

Charges: **Rs.236/course/student/certificate.**

As discussed, You will get your student registered for the said course and also share the student list of the entire batch by tomorrow. Please share this SDP Registration links with other department faculty members too. Feel free to call me if you have any questions.

Thanks and Best wishes,

Chaitra Hitesh Gawade,
Training Co-ordinator, IIT Bombay

It is very helpful for me to understand the concepts from the beginning.

-

—

I think i didnt feel the class more enthusiastic it was a bit lethargic type but even though i have gained knowledge i felt it could have been done in some interesting fashion.

Report on the Student Development Programme(SDP) on

“A Expert Session on Fourier Series and Numerical Techniques”

Date:5-NOV-2020

The event started by welcome Address given by the Vijayakumara Y M welcomed the Chief Guest Dr. K. Karuppasamy Professor Department of Mathematics, Kalasalingam University, staffs and all the Participants and students.

The session was conducted by Dr. K. Karuppasamy The Resource person shared his knowledge and explained the concepts Fourier Series and Numerical Techniques with easy methods.

The students from II year, have attended the Program and learnt many methods of solving problems given by the Resource person.

Overall have 54 students participated in the event and the feedback received for the event is overwhelming.

The Vote of Thanks was given by the Convenor Mr. Vijayakumara Y M.

Dr. K. Karuppasamy Professor Department of Mathematics, Kalasalingam University have taught our IInd year ISE students on "A Expert Session on Fourier Series and Numerical Techniques" On **5th NOV-2020**. Topics covered are Fourier Series and Numerical Techniques. More than 50 students have participated and we have received good feedback about the workshop conducted on 5-November-2020.

Organizing

Two Days Student Development Programme

On

Recent Trends in Wireless Optical Communication

Day: Monday

*Date: 02.11.2020
&
03.11.2020*

Time: 6.30 To 7.30 pm

Speaker:

Vijayashri Belgaonkar
Assistant Professor
Dept., of ECE

Organizing Chair

*Dr. V R Manjunath,
Principal, Sir MVJS*

Convener

*Dr. R Sundaraguru,
Professor & HOD, Department of ECE*

Organizer:

Vijayalakshmi S

Associate Professor, Dept. of ECE

Registration Link: <https://forms.gle/MNcxovJ8nxxv2Ynk6>

Participants will receive an E-certificate in their registered Email ID

**Report
On
2 days SDP on "Recent Trends in Optical Wireless
Communication"**

Department of ECE conducted 2 days SDP on "Recent Trends in Optical Wireless Communication" on 2nd and 3rd November 2020. There were 62 participants for this event

1. Link for first day SDP (02-11-2020)
<https://meet.google.com/tdw-zjbk-ryr>
2. Link for second day SDP (03-11-2020)
<https://meet.google.com/otz-fkot-hfd>

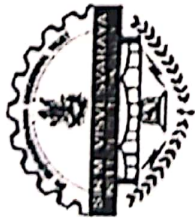

Optical Wireless Technology is emerging as one of the key advancements in Communication. Radio frequency communication (RFC) has played the imperative part in the area of communication. As the number of the client as well as the request of high information rate transmission increases, the desired transmission capacity too increased. Free space optical communication (FSO) or Optical Wireless Communication is license free and offers high bandwidth, immunity to interference, and support a high data rate of transmission. Thus, due to scarcity in the bandwidth, FSO is another reasonable elective alternative for RFC. Other than over specified points of interest, the quality of transmission of the FSO framework gets weakened within the bad atmospheric conditions. Thus, FSO system is deteriorated by atmospheric turbulence (AT) which causes fading and misalignment loss. AT is also dependent upon weather condition. The AT is random in nature and may result in a significant deterioration in the quality of transmission and performance metrics of the FSO communication systems. The cause of intensity fluctuation during the propagation is due to the occurrence of inhomogeneities in pressure and temperature along the transmission path. The optical channel shows arbitrarily time-variant characteristics modelled measurably to evaluate the quality of communication link. A number of statistical models have been proposed in literature to portray AT. The different models represents the intensity fluctuation with reference to the strength of magnitude of turbulence, which are negative exponential, Gamma-Gamma, I-K distribution and log-normal etc. The weak turbulence is generally modelled as a log-normal distribution, whereas the moderate and strong turbulence is modelled as Gamma-Gamma distribution. Ergodic channel capacity can be utilized as an important performance metric to determine the best transmission rate over an atmospheric turbulent channel.

First Day of the programme covered the importance of Optical communication in today's world. Applications of Optical Wireless communication. Second day of the programme covered the challenges faced in this form of communication and solutions. This event is coordinated by Associate Professor Mrs. Vijayalakshmi S. and Assistant Professor Mrs. Vijayashri Belgaonkar. The total number of participants attended this SDP were 63 in number.

Department of Electronics and Communication

3 Days National level Industry Readiness Programme

On

"Smart Embedded System Design Using Arduino"

REPORT

The department of Electronics & Communication Engineering, conducted three days national level industry readiness programme on *"Smart Embedded System Design Using Arduino"* on 30th Oct -1st Nov 2020.

The Invitation for SDP was sent to various branches in Sir MVIT. The response was satisfactory. Total number of participants were 36 in number. The registration started on 28th October 2020 online.

Inauguration started at 9.30 AM HOD, Dr. R. Sundaraguru, presided the inaugural function accompanied by Dr Sasmita Mahopatra, Associate professor, Dept. of ECE, Mr. Kotresh Mundrugi and Ms. Shrenika R M. Dr Sasmita Mahopatra, Associate professor, Dept. of ECE, welcomed the distinguished guests and participants. Dr. R. Sundaraguru, HOD, Dept. of ECE gave his presidential remarks and highlighted the importance of qualitative research. Inaugural function ended with vote of thanks.

On the first day, Mr. Kotresh started the first session at 10.00 AM with Embedded system and Arduino Uno Architecture explanation. Second day started with Sensors and Actuators explanation using TinkerCAD Online Simulator. Third day session started Interfacing of Sensor circuits (IR, Temperature Sensor, Ultrasonic Sensor, Gas Sensor, LDR) using Arduino Microcontroller and fourth day Product development for Water Level Monitoring using Ultrasonic sensor.

The feedback received from participants was very good towards SDP. All four days sessions were very informative, also queries raised from the participants were clarified.

The three days SDP was conducted successfully.

**Report
On
Webinar on "Free Space Optical Communication "**

Department of ECE conducted a webinar on "**Free Space Optical Communication**" on 21st October 2020. There were 71 student participants for the webinar

Free Space Optical Communication is emerging as one of the key advancements in Communication. Radio frequency communication (RFC) has played the imperative part in the area of communication. As the number of the client as well as the request of high information rate transmission increases, the desired transmission capacity too increased. Free space optical communication (FSO) or Optical Wireless Communication is license free and offers high bandwidth, immunity to interference, and support a high data rate of transmission. Thus, due to scarcity in the bandwidth, FSO is another reasonable elective alternative for RFC. Other than over specified points of interest, the quality of transmission of the FSO framework gets weakened within the bad atmospheric conditions. Thus, FSO system is deteriorated by atmospheric turbulence (AT) which causes fading and misalignment loss. AT is also dependent upon weather condition. The AT is random in nature and may result in a significant deterioration in the quality of transmission and performance metrics of the FSO communication systems. The cause of intensity fluctuation during the propagation is due to the occurrence of inhomogeneities in pressure and temperature along the transmission path. The optical channel shows arbitrarily time-variant characteristics modelled measurably to evaluate the quality of communication link. A number of statistical models have been proposed in literature to portray AT. The different models represents the intensity fluctuation with reference to the strength of magnitude of turbulence, which are negative exponential, Gamma-Gamma, I-K distribution and log-normal etc. The weak turbulence is generally modelled as a log-normal distribution, whereas the moderate and strong turbulence is modelled as Gamma-Gamma distribution. Ergodic channel capacity can be utilized as an important performance metric to determine the best transmission rate over an atmospheric turbulent channel.

DEPARTMENT OF CIVIL ENGINEERING
SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY,
BANGALORE

ON
19TH SEPTEMBER, 2020

SPEAKER – Dr. SENTHILKUMAR R
ASSISTANT PROFESSOR & ASSOCIATE DEAN (P&D)
NIT TRICHY

To,
The HOD,
Department of Civil Engineering
Sir MVIT,
Bangalore – 562157

Dated: 11th Sept. 2020

Sub: Proposal for SDP on Embodied Energy and Green Building.

Respected Sir,

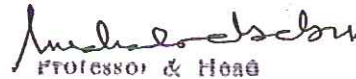

With reference to the above subject, we would like to propose a Student Development Program on “Embodied Energy and Green Building”, on 19th September, 2020. In this regard, we request for your kind permission to conduct this event in our institution, as this will be helpful to students in learning concepts of sustainability, environmental concerns in construction, embodied energy and green building.

This program will help us to address the gaps in our Program Outcomes (PO6, PO7)

Thanking you,
Yours faithfully,

N Tamil Selvi
Assistant Professor
Sir MVIT
Bengaluru

Professor & Head
Department of Civil Engineering
M. V. V. Institute of Technology
Bangalore - 562 157

REPORT ON

Student Development Program

“EMBODIED ENERGY & GREEN BUILDING”

Conducted on 19th of September, 2020

Human activities affect the environment. Some are less impactful, some much, much more. According to the United Nations Environment Program (UNEP), the construction sector is responsible for up to 30% of all greenhouse gas emissions. Activities such as mining, processing, transportation, industrial operations, and the combination of chemical products result in the release of gases such as CO₂, CH₄, N₂O, O₃, halocarbons, and water vapor. When these gases are released into the atmosphere, they absorb a portion of the sun's rays and redistribute them in the form of radiation in the atmosphere, warming our planet. With a rampant amount of gas released daily, this layer thickens, which causes solar radiation to enter and stay in the planet. Today, this 'layer' has become so thick that mankind is beginning to experience severe consequence, such as desertification, ice melting, water scarcity, and the intensification of storms, hurricanes, and floods, which has modified ecosystems and reduced biodiversity.

As Civil Engineers, one of our biggest concerns should be the reduction of carbon emissions from the buildings we construct. Being able to measure, quantify, and rate this quality is a good way to start.

This Student Development Program was organized by Department of Civil Engineering Sir MVIT on 19th September 2020, to give an insight into this concept of Embodied Energy and Green Building.

The program was conducted over Google Meet Platform, and over 80 active participants.

The program started at 10.30 am IST. Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, Mr. KVR Prasad, Mrs. Pradeepa S, and Mrs. Anitha J, addressed the gathering and commenced the program.

This was followed by welcome address by Mr. H.P Mahendrababu, Professor & Head of Civil Engineering Department, who spoke on importance of BIM and how it would help our students to upgrade their skills.

Mrs. N Tamil Selvi, Assistant Professor, introduced and welcomed the speaker to start with his presentation.

Dr. Senthilkumar R, Assistant Professor and Associate Dean (P&D), NIT Trichy, gave an elusive talk on Embodied energy & Green Building.

He explained that the term **Embodied Energy** refers to the sum impact of all greenhouse gas emissions attributed to a material during its life cycle. This cycle encompasses extraction, manufacturing, construction, maintenance, and disposal. For example, reinforced concrete is a material with extremely high embodied energy. When manufacturing the cement, large amounts of CO₂ are released in the calcination stage, where limestone is transformed into calcium oxide (quicklime), as well as in the burning of fossil fuels in furnaces. If we add these issues to the exploitation of sand and stone, to the use of iron for the rebar, to its transport to the construction site to be added to the mix, we can understand the impact of each decision of a project on the environment. Other construction materials, such as ceramic, brick, and plastic, similarly require large amounts of energy to be manufactured since the minerals used in them must be extracted and treated in energy-intensive processes.

He explained how, understanding the amount of energy or carbon incorporated in building's materials is essential to creating more eco-conscious projects.

Participants showed active participation by asking questions during the question & answer session, the speaker, Dr. Senthilkumar R, answered all of the questions.

The session ended with thanks to the speaker and all the attendees, by Mrs. Pradeepa S, Assistant Professor, Department of Civil Engineering, Sir MVIT, Bangalore.

The Embodied Energy and Green Building Student Development Program was aimed to address several program outcomes related to sustainable design principles and practices. Here are some of the program outcomes that the program addressed:

Sl. No.	Outcomes	POs addressed
1	Knowledge and understanding of embodied energy: The program provided students with a comprehensive understanding of embodied energy, including the concept of life-cycle assessment, embodied carbon, and the importance of reducing embodied energy in buildings.	PO6, PO7, PO11
2	Knowledge and understanding of green building principles: The program provided students with knowledge and understanding of green building principles, including sustainable design strategies, energy efficiency, renewable energy, and green materials.	
3	Ability to evaluate the embodied energy of building materials: The program provided students with the skills and knowledge necessary to evaluate the embodied energy of building materials and products using different assessment methods.	
4	Ability to design sustainable buildings: The program helped students develop the ability to design sustainable buildings that minimize embodied energy and incorporate green building principles.	
5	Understanding of green building certification: The program provided students with knowledge and understanding of different green building certification systems, such as LEED, and the criteria and requirements for certification.	
6	Project management skills related to sustainable design: The program helped students to understand project management skills related to sustainable design, including project planning, budgeting, and team collaboration.	
7	Critical thinking and problem-solving skills: The program helped students develop critical thinking and problem-solving skills related to sustainable design, including the ability to identify and resolve issues related to embodied energy and green building.	

By addressing these program outcomes, the Embodied Energy and Green Building Student Development Program prepared students for careers in the construction and architecture industries and equip them with the skills and knowledge they need to design and build sustainable buildings.
