To whomsoever it may concern

This is to certify that Miss Aashitha C Shekar a Student of Sir M. Visvesvaraya Institute of Technology, Bengaluru pursuing VI Semester Bachelor of Engineering (Biotechnology) having University Seat No **1MV19BT001** has successfully undergone an internship training from 22nd August to 18th September 2022 in Neuroscience Unit, Jawaharlal Nehru Centre for Advance Scientific Research, Bengaluru.

Through-out the internship, her overall conduct and attitude towards work was satisfactory. She was hardworking, punctual, and committed in carrying out her assignments.

Wishing her all success for her bright future.

Thank you.

Sincerely,

Dr. James P Clement
Associate Professor

To Whomsoever it may concern,

This is to certify that **Mr. Advait KG**, an BE Biotechnology student of Sir M Visvesvaraya Institute of Technology has completed his internship, for **four weeks** under my supervision in the Department of **Microbiology and Cell Biology** at the **Indian Institute of Science, Bangalore**. During his internship he worked with a Ph. D. student and has learned at microbiology and recombinant DNA methodologies. These methods are being used to create mutants in a pre-mRNA splicing factor from the fungal species *Cryptococcus neoformans*. These analyses are part of ongoing project in the laboratory studying post transcriptional gene regulation and its impact on cell division cycle and the study done in collaboration with a PhD student under my guidance in my laboratory.

Satyam Shree
SMVIT Men's Hostel,
Sir M Visvesvaraya Inst Rd,
Yelahanka, Bengaluru 562157

Dear Satyam,

Cast Software India Pvt Limited is pleased to extend your Internship for a period of six month on the following terms:

- 1. Position:** It is with great pleasure that we have given you an appreciable understanding of the position for which you are being considered. You will be reporting to the Feature Team Leader & your internship period will be for a period of six months from **27 December 2022 to 30 June 2023**. By signing this letter, you confirm to the Company that you are under no contractual or other legal obligations that would prohibit you from performing your duties for the Company.
- 2. Compensation:** You will be paid a stipend of **INR 50,000** payable monthly. The company shall pay you by way of separate cheque or wire transfer to your bank account, the monthly stipend upon completion of each month.
- 3. Benefits:** As an Intern, you will not be eligible for any Company benefits.
- 4. Leave:** As an intern, you are entitled to avail one leave every month. You can send your leave request through email to HR and your Manager.
- 5. Employment Relationship:** There is no relation of employer and employee during the internship period. The Company is under no obligation to offer full-time employment after the Internship. Likewise, you are under no obligation to the Company after you complete your work during the period of six months. The company according to its recruitment process and employment policy will decide whether to offer you to join the company as an employee and it is not a mandatory rule that you will be appointed as an employee immediately after the internship period is completed.
- 6. Outside Activities:** While you are rendering services to the Company during the internship period, you agree that you will not engage in any other employment, consulting or other business activity without the written consent of the Company. While you are rendering services to the Company, you also will not assist any person or entity in competing with the Company, in preparing to compete with the Company or in hiring any employees or consultants of the Company
- 7. Withholding Taxes:** There will be no withholding or deduction of any taxes etc. from your monthly stipend.
- 8. Entire Agreement:** This letter supersedes and replaces any prior understandings or agreements, whether oral or written, between you and the Company regarding the subject matter described in this letter.

We hope that you find the foregoing terms acceptable. You may indicate your acceptance with these terms and accept this internship offer by signing and dating both the enclosed duplicate original of this letter and returning them to us. We look forward to having you join as an intern at the earliest.

Very truly yours,

Nityanand Kamath
CFO, Cast India

Stefan Kutschera, BSc MSc MA
Google Summer of Code Org. Admin,
Information Security Officer,
Head of Emergency Response Team

Email: stefan.kutschera@catrobat.org
Phone: +43 316 873 - 5745

Graz / Austria, 26th September 2022

To whom it may concern:

This letter is intended to serve as a confirmation for Mr. Aakash Tyagi's, born 2nd March 2002, internship through the Google Summer of Code program and contribution at the International Catrobat Association. We are pleased to confirm that Aakash participated in our free and open source software (FOSS) project from **June 13th, 2022 to September 23th 2022.**

Catrobat is a non-profit FOSS project aiming to develop free mobile visual coding frameworks that foster computational thinking for beginners. Inspired by Scratch, a visual programming language developed by the Lifelong-Kindergarten-Group at the MIT Media Lab, Catrobat enables young teenagers to create and execute projects in a visual block-style solely using their smartphones, running our most successful service called "Pocket Code".

Aakash was accepted by our organization through a 4 personal jury out of many applicants to contribute to our non-profit FOSS project between June and September 2022 while receiving a scholarship from Google. His mentors, Katja & Vesna, reported that it was a pleasure to have a mentee like Aakash, and his outstanding experience.

A lot of emphasis on automated testing and code quality are put at Catrobat, allowing only the best pull requests to be merged into the main code repository. Aakash contributed in creating a tutorial game using Catrobat's own visual programming language. We can use and show our users and users-to-be the possibilities of our language. We are very thankful to have Aakash assigned to such a responsible task.

Upon many other goals, the GSoC program wants to inspire young students to take part in the open source development and thus help FOSS communities to find and retain newcomers. For this reason, we are always very pleased when we have the opportunity to support the participation of newcomers in the longer term, also beyond the scope of GSoC - Aakash will be one of them.

We are looking forward to supporting Aakash and are thankful for giving both parties this wonderful opportunity.

Yours sincerely,

Stefan Kutschera

Hello,

To Whomsoever It May Concern

This is to certify that Vartika Sharma from Sir M. Visvesvaraya Institute of Technology, Bengaluru, has completed internship at Jio Platforms Limited from 25 Aug 2022 to 25 Sep 2022.

During this period, Vartika Sharma completed a project titled "Entities driven topic modeling" under the guidance of Somesh Ganti.

Please Note: As the project involves highly sensitive data, all the details and the contents made towards the project needs to be kept confidential. Under no circumstances must this be shared nor distributed in any form to anyone other than the company authorized personnel or as is required by law. It is expected that Vartika Sharma complies and adheres to the company policy and its rules.

During the internship period, we found Vartika Sharma to be sincere and diligent. We wish all the best in all future endeavours.

Yours sincerely,

For Jio Platforms Limited,

A handwritten signature in blue ink, appearing to be "S. Ganti".

Certificate of Internship Completion

Sir M. Visvesvaraya Institute of Technology
To Whom It May Concern,

My name is Md. Danish Kalim, a Staff Machine Learning Engineer, currently leading the Feed Ranking Team at ShareChat - a prominent social media and social networking platform in India. ShareChat takes pride in catering to a diverse user base of over 250 million active monthly users across 15 Indian languages.

Name: Arjun Garg
Roll No.: 1MV19CS023

I am writing to confirm that Arjun Garg has successfully completed a Software Engineering internship program with a focus on Data Engineering at Sharechat from July to October 2022. Arjun is a highly motivated individual who demonstrated a solid understanding of the concepts of data engineering and its practical application in solving business problems related to data quality during his internship.

Furthermore, Arjun exhibited excellent communication skills and was able to collaborate effectively with team members to comprehend project requirements and present his findings and recommendations to the team.

Projects.

1. Golden dataset: Single data source of truth for entire AI and Product team to work with.
2. Feature Quality monitoring: Quality checks(coverage, distribution, consistency, and correctness) on health of online and offline features used in ranking system.

Please feel free to reach out to me if you have any additional inquiries regarding this letter.

Best regards,

A handwritten signature in black ink, appearing to read "Danish", with a stylized flourish underneath.

Dear Student,

We would like to congratulate you on being selected for the **Machine Learning With Python (Research Based)** Internship position with **Varcons Technologies Pvt Ltd**, effective Start Date **23rd August, 2022**, All of us are excited about this opportunity provided to you!

This internship is viewed as being an educational opportunity for you, rather than a part-time job. As such, your internship will include training/orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts of **Machine Learning With Python (Research Based)** through hands-on application of the knowledge you learn while you train with the senior developers. You will be bound to follow the rules and regulations of the company during your internship duration.

Again, congratulations and we look forward to working with you!

Sincerely,

Certificate of Internship

This is to certify that **Mr/Ms Ashok Ammanagi (1MV19IS006)** has done his/her **Full Stack Web Development Internship** in **Compsoft Technologies, RajajiNagar, Bangalore**, from 27th August 2022 to 29th September 2022.

He/She has worked on a project titled **Leaf now**. This project was aimed at creating a cutting edge website for a client of ours, As part of the project, he/she designed functional webpages, Backend Databases to collect, store, and sort data, by understanding the design briefs and client Specifications that were provided in the Proposal.

During the internship, he/she demonstrated good design skills with a self-motivated attitude to learning new things. His/Her performance exceeded expectations and was able to complete the project successfully on time, We wish him/her all the best in his/her future endeavours.

Warm regards,

(Project Manager, CST)

ACKNOWLEDGMENT

I cannot express enough of my sincere gratitude to **Compsoft Technologies** for providing me the opportunity and the resources to work under them on their company's project and for providing me their invaluable help when I found myself in a spot of bother.

This internship consumed a huge amount of work, research and dedication. Still, implementation would not have been possible if I did not have the support of many individuals. Therefore, I would like to extend my sincere gratitude to all of them. First of all, I am thankful to my **Principal Dr. S G RAKESH** for providing me with all the necessary permissions to work on the internship.

I am also grateful to **Dr. G. C. Bhanu Prakash**, Head of Department Information Science and Engineering, for provision of expertise, and logistical support during the course of the internship.

I would also like to thank the internal guide **Mrs. Suguna M K** Assistant Professor Information Science and Engineering for always being there to clarify my queries and give me valuable suggestions.

Nevertheless, I express my gratitude towards my family and friends for their kind cooperation and encouragement which helped me in the completion of this internship successfully.

ABOUT THE COMPANY

CST is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At CST, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

- Development - We develop responsive, functional and super-fast websites.
- We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small viewport and slow internet connection.
- Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.
- Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.
- Consultancy - We are here to provide you with expert advice on your design and development requirement.
- Videos - We create a polished professional video that impresses your

ABSTRACT

“As getting the information from various research papers and other sources we analysis that many peoples want to buy a plants and they directly concerned to nursery but sometimes people doesn't know specific information about particular plant items as well seller is not technically skilled. Customer doesn't compare plants pricing with different shopkeeper as well as in nursery there is no facility for online payment only cash may consumed. So, in this case e-nursery is platform where customer can compare plants pricing and make online payment easily.

Growing and tending to plants is one of life's greatest pleasures. Whether you love adding a colorful background to your living space, or tending to the flowerbeds in your garden, plants have the power to take away our stress.If you love plants, you may decide that helping others with their plant projects is right up.

Abstract

Table of Contents

- Chapter 1 **INTRODUCTION**
- Chapter 2 **REQUIREMENTS**
- Chapter 3 **IMPLEMENTATION**
- Chapter 4 **RESULTS**
- Chapter 5 **CONCLUSION**

Chapter 1

INTRODUCTION

CHAPTER 1

INTRODUCTION

A nursery is a place where plants are propagated and grown to a desired age. They include retail nurseries which sell to the general public, wholesale nurseries which sell only to businesses such as other nurseries and to commercial gardeners, and private nurseries which supply the needs of institutions or private estates.

Nurseries may supply plants for gardens, for agriculture, for forestry and for conservation biology. Some produce bulk stock, whether seedlings or grafted, of particular varieties for purposes such as fruit trees for orchards, or timber trees for forestry.

Some produce stock seasonally, ready in springtime for export to colder regions where propagation could not have been started so early, or to regions where seasonal pests prevent profitable growing early in the season.

Chapter 2

REQUIREMENTS

CHAPTER 2

REQUIREMENTS

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS, NextJs, Axios, Cookies
- Backend: NodeJs, ExpressJs, MongoDB
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB ofRAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

Chapter 3

IMPLEMENTATION

CHAPTER 3

IMPLEMENTATION

Implementation is the stage where the theoretical design is turned into a working system. The most crucial stage in achieving a new successful system and in giving confidence on the new system for the users that it will work efficiently and effectively.

The system can be implemented only after thorough testing is done and if it is found to work according to the specification. It involves careful planning, investigation of the current system and its constraints on implementation, design of methods to achieve the change over and an evaluation of change over methods a part from planning.

Two major tasks of preparing the implementation are education and training of the users and testing of the system. The more complex the system being implemented, the more involved will be the system analysis and design effort required just for implementation.

The implementation phase comprises of several activities. The required hardware and software acquisition is carried out. The system may require some software to be developed. For this, programs are written and tested. The user then changes over to his new fully tested system and the old system is discontinued.

CHAPTER 5**CONCLUSION**

- The proposed system can guarantee to keep the records are safe and privacy which is stored in the database.
- It converts unstructured data into structured data and sorted format.
- It is very helpful, reliable and performs well functional to get an alert message and emails on the cell phone.
- In this dissertation, we have developed an approach to allow customers to buy plants without even visiting shop.
- Being able to buy anytime, anywhere, any place.
- Site enables them to browse before they shop, and to research the product so they have more confidence in what they are buying.
- Online shopping becomes more enjoyable and easier than real- world shopping.
- It provides online payment system.
- Customer can track their order detail and give the feedback if any problem occur during shipment

Nevertheless, I express my gratitude towards my family and friends for their kind cooperation and encouragement which helped me in the completion of this internship successfully.

ABOUT THE COMPANY

CST is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At CST, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

- Development - We develop responsive, functional and super-fast websites.
- We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small viewport and slow internet connection.
- Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.
- Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.
- Consultancy - We are here to provide you with expert advice on your design and development requirement.
- Videos - We create a polished professional video that impresses your

ABSTRACT

“As getting the information from various research papers and other sources we analysis that many peoples want to buy a plants and they directly concerned to nursery but sometimes people doesn't know specific information about particular plant items as well seller is not technically skilled. Customer doesn't compare plants pricing with different shopkeeper as well as in nursery there is no facility for online payment only cash may consumed. So, in this case e-nursery is platform where customer can compare plants pricing and make online payment easily.

Growing and tending to plants is one of life's greatest pleasures. Whether you love adding a colorful background to your living space, or tending to the flowerbeds in your garden, plants have the power to take away our stress.If you love plants, you may decide that helping others with their plant projects is right up.

Chapter 1

INTRODUCTION

CHAPTER 1

INTRODUCTION

A nursery is a place where plants are propagated and grown to a desired age. They include retail nurseries which sell to the general public, wholesale nurseries which sell only to businesses such as other nurseries and to commercial gardeners, and private nurseries which supply the needs of institutions or private estates.

Nurseries may supply plants for gardens, for agriculture, for forestry and for conservation biology. Some produce bulk stock, whether seedlings or grafted, of particular varieties for purposes such as fruit trees for orchards, or timber trees for forestry.

Some produce stock seasonally, ready in springtime for export to colder regions where propagation could not have been started so early, or to regions where seasonal pests prevent profitable growing early in the season.

Chapter 2

REQUIREMENTS

CHAPTER 2

REQUIREMENTS

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS, NextJs, Axios, Cookies
- Backend: NodeJs, ExpressJs, MongoDB
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB ofRAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

Chapter 3

IMPLEMENTATION

CHAPTER 3

IMPLEMENTATION

Implementation is the stage where the theoretical design is turned into a working system. The most crucial stage in achieving a new successful system and in giving confidence on the new system for the users that it will work efficiently and effectively.

The system can be implemented only after thorough testing is done and if it is found to work according to the specification. It involves careful planning, investigation of the current system and its constraints on implementation, design of methods to achieve the change over and an evaluation of change over methods a part from planning.

Two major tasks of preparing the implementation are education and training of the users and testing of the system. The more complex the system being implemented, the more involved will be the system analysis and design effort required just for implementation.

The implementation phase comprises of several activities. The required hardware and software acquisition is carried out. The system may require some software to be developed. For this, programs are written and tested. The user then changes over to his new fully tested system and the old system is discontinued.

CHAPTER 5**CONCLUSION**

- The proposed system can guarantee to keep the records are safe and privacy which is stored in the database.
- It converts unstructured data into structured data and sorted format.
- It is very helpful, reliable and performs well functional to get an alert message and emails on the cell phone.
- In this dissertation, we have developed an approach to allow customers to buy plants without even visiting shop.
- Being able to buy anytime, anywhere, any place.
- Site enables them to browse before they shop, and to research the product so they have more confidence in what they are buying.
- Online shopping becomes more enjoyable and easier than real- world shopping.
- It provides online payment system.
- Customer can track their order detail and give the feedback if any problem occur during shipment

CERTIFICATE OF INTERNSHIP

This is to certify that **Sneha Kumari** whose USN is **1MV19IS055**, has completed their **Machine Learning with Python (Research Based)** Internship organised and handled by **company** from **25th August, 2022** to **29th September, 2022**.

The person to whom this certificate is addressed to has worked on a project titled **Voice Classification Using ML**, As part of the project, They designed the Machine Learning Model, Demonstrated and tested the working of the Model, Prepared a report highlighting its flaws by understanding the design briefs and client Specifications that were provided in the Proposal.

During the course of the internship, they demonstrated good design skills with a self-motivated attitude to learning new things. Their performance exceeded expectations and was able to complete the project successfully on time.

Certificate of Internship

This is to certify that Agrani Deepak whose USN is 1MV19EE011, has completed his Internship on Designing of External Rotor Motor and Stator and Various Blower Testing practices organised and handled by Eyyani Electric Machines Pvt. Ltd. from 22nd August, 2022 to 23rd September, 2022.

The person to whom this certificate is addressed to has worked on a Subject titled to Design a Low Voltage Motor Rotor and Stator. This project was aimed at bringing awareness on the external rotor motor and stator designing and various methods of testing the blowers and its parameters. As part of the project, they designed few motor parameters for low voltage application and took part in testing stages of the air blower parameters which was in development stage for one of our clients who works with Railway Sector.

During the course of the internship, they demonstrated good design skills with a self-motivated attitude to learning new things. Their performance exceeded expectations and was able to complete the Internship successfully on time.
