DETAILS OF THE INNOVATIVE TEACHING METHODS USED BY THE FACULTY

Academic Year	2019-2020 ODD
Subject Name and Subject Code	Software Engineering
Faculty Name	Dr.P.VIJAYAKARTHIK
Semester	3 rd semester
Name of the Innovative Teaching Methods used	Task cards and Think share and Pair
Short Description of the Innovative Teaching Activity.	<p>The objective of using Task cards in classrooms is to develop students as independent learners. Basically, a task card will have tasks or questions on them. They will be given tasks like programmer, software Test Engineer, Project These Tasks cards are one of the best tools for reinforcement and assessment.</p> <p>We have used this Task Cards Technique for demonstrating the topic “Role of Software Engineer and various -TASK CARDS will be given to students.</p> <p>Think Pair and share is a collaborative learning strategy to develop teamwork among the students. In this method, students can work in partnerships to solve a given problem like “ Issues in developing the software. This allows them to think individually as well as to share ideas to come up with a solution. They can discuss the ideas with their allotted partner before sharing it with a larger group.</p> <p>We have used this innovative method to and the students came with more number of solutions by implementing the Innovative Teaching Methods - Think Pair and share Technique.</p>
Number of students got benefited.	60

Number of students involved in the activity.	5 students
Venue of the Activity	Class Room Number 005
Schedule of the Event	9.9.2019
Whether the work can be Reproduced and Reviewed.	YES
Details are available in the college website.	YES
Photograph for the event	 <p data-bbox="592 1108 1539 1192">Student performing “Task card Method” by implementing the Innovative Teaching Methods “</p>  <p data-bbox="592 1766 1539 1850">Demonstrating the topic “ Issues in developing the software” by implementing the Innovative Teaching Methods -Think Pair and share.</p>

Contents of the Event	- Students will perform various tasks on stage in the class room about the role of software developer, Tester, Project manager in IT Company.
Impact Analysis after using this Innovative Teaching Methods used.	Students have shown more interesting in learning the subject.
Feedback from the students	Our students have expressed this Task Cards and Think Pair and share and this Innovative Teaching Methods are very interesting and they can understood the concept very quickly.
Relevance to PO and PSO	PO1, PO2, PO9,P10,PO12
Any comments or Suggestions from the Programme Co-ordinator	The content should be made readily available in the College website.

Signature of the Faculty	Signature of the HOD

DETAILS OF THE INNOVATIVE TEACHING METHODS USED BY THE FACULTY

Academic Year	2021-22 ODD
Subject Name and Subject Code	DBMS (18CS53)
Faculty Name	Mr. Vijayakumara Y M
Semester	5 th semester
Name of the Innovative Teaching Methods used	Fish Bone Technique.
Short Description of the Innovative Teaching Activity.	Difference between traditional file system management and database management systems is explained using the fish bone innovative teaching methodology. Redundancy, Access control, Data persistency, constraints, back up and recovery etc.
Number of students got benefited.	40
Number of students involved in the activity.	10
Venue of the Activity	Class Room Number: NB 005
Schedule of the Event	11.11.2021
Whether the work can be Reproduced and Reviewed.	YES

<p>Details are available in the college website.</p>	<p>YES</p>
<p>Photograph for the event</p>	 <p>Difference between traditional file system management and database management systems is explained using the fish bone innovative teaching methodology.</p>
<p>Contents of the Event</p>	<p>DBMS vs FILE SYSTEMS</p>

Impact Analysis after using this Innovative Teaching Methods used.	Students have shown more interesting in the subject.
Feedback from the students	Our students have expressed this innovative Teaching Methods is very interesting and they can understand the concept very quickly.
Relevance to PO and PSO	PO1, PSO2, P012, PS01
Any comments or Suggestions from the Programme Co-ordinator	The content should be made readily available in the College website.

DETAILS OF THE INNOVATIVE TEACHING METHODS USED BY THE FACULTY

Academic Year	2021-2022 ODD
Subject Name and Subject Code	Automata Theory and Computability(18CS54)
Faculty Name	Mrs. SUGUNA M K
Semester	5 th semester
Name of the Innovative Teaching Methods used	Demonstration of Deterministic Finite Automata using JFLAP software
Short Description of the Innovative Teaching Activity.	<p>JFLAP is software for experimenting with formal languages topics including deterministic finite automata, nondeterministic finite automata, nondeterministic pushdown automata, multi-tape Turing machines, several types of grammars, parsing, and L-systems. In addition to constructing and testing examples for these, JFLAP allows one to experiment with construction proofs from one form to another, such as converting an NFA to a DFA to a minimal state DFA to a regular expression or regular grammar.</p> <p>I demonstrated how to draw DFA using JFLAP software</p> <div style="display: flex; justify-content: space-between; align-items: flex-start;"> <div style="border: 1px solid black; padding: 5px; width: 45%;"> <p>Regular languages - create</p> <ul style="list-style-type: none"> • DFA • NFA • regular grammar • regular expression </div> <div style="border: 1px solid black; padding: 5px; width: 45%; text-align: center;"> <pre> graph LR q0((q0)) -- a --> q0 q0 -- a --> q1((q1)) q1 -- a --> q2(((q2))) q2 -- b --> q0 </pre> </div> </div>

Number of students got benefited.	60
Number of students involved in the activity.	-
Schedule of the Event	25.10.2021
Whether the work can be Reproduced and Reviewed.	YES
Details are available in the college website.	NO

Photograph for the event

Demonstrating to draw DFA to accept strings of a and b starting with ab

Contents of the Event	JFALP software
Impact Analysis after using this Innovative Teaching Methods used.	Students have shown more interesting towards the subject.
Feedback from the students	Our students have also learned how to use JFLAP software to solve DFA problems
Relevance to PO and PSO	PO1, PO5, PO12, PS01
Any comments or Suggestions from the Programme Co-ordinator	This activity should be extended for next batch of students .

Date : 14.8.2021

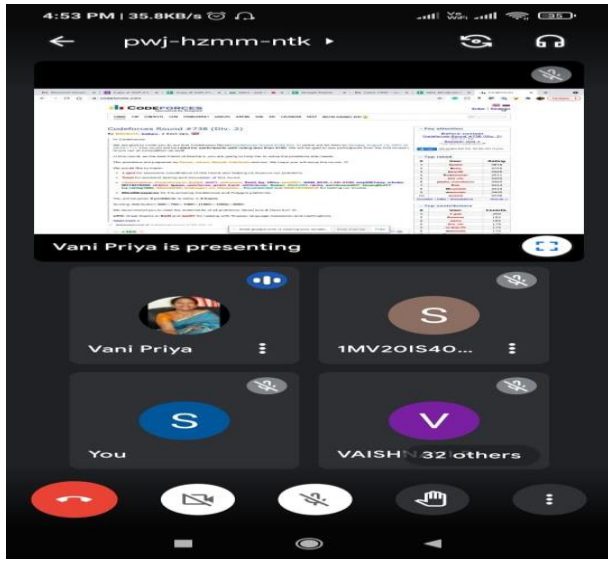

DETAILS OF THE GROUP DISCUSSION ACTIVITY

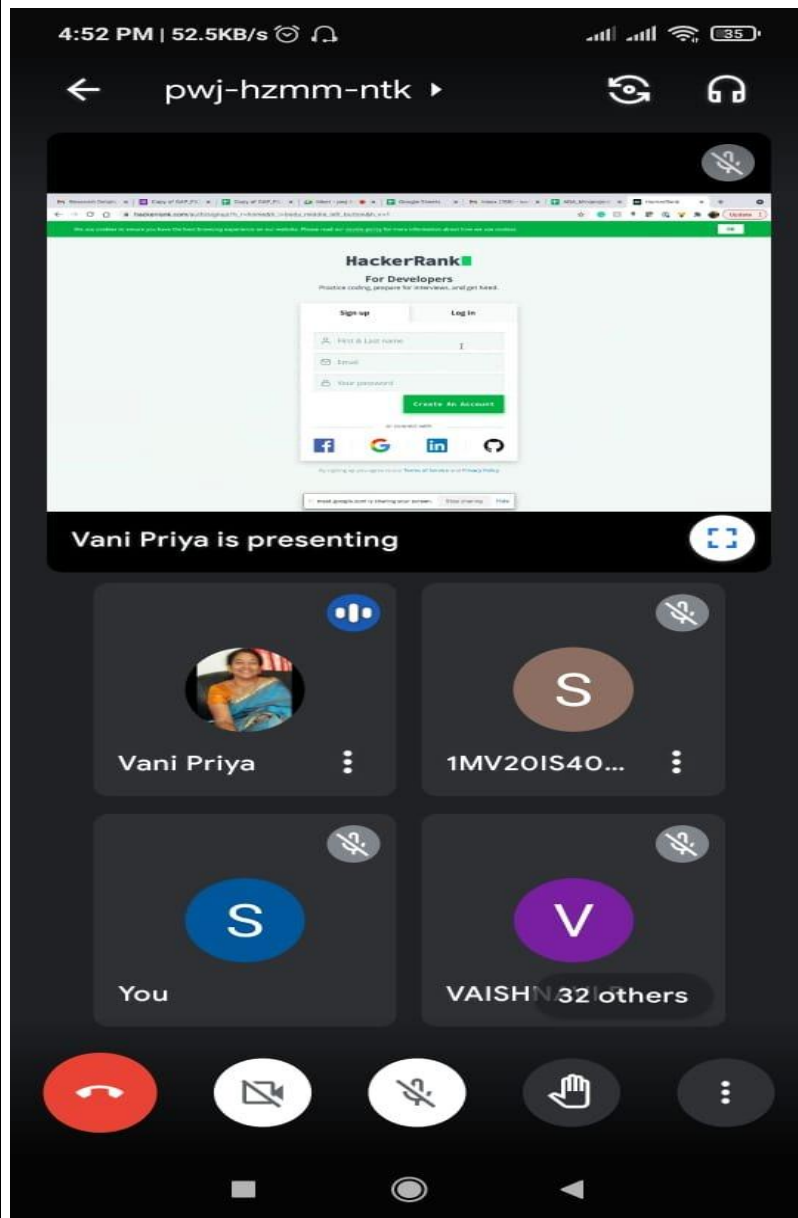

Academic Year	2020-2021 EVEN
Subject Name and Subject Code	Design and Analysis of Algorithms(18CS42)
Faculty Name	Dr.CH.Vanipriya
Semester	4th semester
Name of the Activity	Group Discussion about various websites for improving the coding skills
Short Description of the Activity.	A great way to improve the coding skills when learning to code is by solving coding challenges. Solving different types of challenges and puzzles can help one become a better problem solver, learn the intricacies of a programming language, prepare for job interviews, learn new algorithms, and more. This activity let the students explore the websites and discuss about the advantages of using the particular website.
Number of students got benefited.	55
Number of students involved in the activity.	55
Venue of the Activity	Online
Schedule of the Event	14.8.2021

Whether the work can be Reproduced and Reviewed.

YES

Photograph for the event

Students participating in the Group Discussion on the Topic “Websites for improving the coding skills ”

<https://www.freecodecamp.org/news/the-10-most-popular-coding-challenge-websites-of-2016-fb8a5672d22f/>

Contents of the Event

Various websites:

1. TopCoder
2. Coderbyte
3. Project Euler
4. HackerRank
5. CodeChef
6. Exercism.io
7. Codewars

	<u>8. LeetCode</u> <u>9. SPOJ</u> <u>10. CodinGame</u>
Impact Analysis after using this Innovative Teaching Methods used.	Students have gone through various websites and found that they can practice the code and get through the placements
Feedback from the students	Students have expressed this Group Presentation Activity is very interesting and they understood the need of these websites
Relevance to PO	PO 1, PO9, PO10, PO12
Relevance to PSO	PSO1-3
Any comments or Suggestions from the Programme Co-ordinator	Very Good Initiative so that Team building skills and Communication of students will be improved by this Group Presentation Activity.

DETAILS OF THE INNOVATIVE TEACHING METHODS USED BY THE FACULTY

Academic Year	2021-22 (odd sem)
Subject Name and Subject Code	Big Data Analytics(18CS72)
Faculty Name	Mrs.Vandana M
Semester	7 th semester
Name of the Innovative Teaching Methods used	Role Play
Short Description of the Innovative Teaching Activity.	Role play games for teaching the two fundamental components in the Hadoop framework, MapReduce and Hadoop Distributed File. Students form teams and play different roles as a part of a Hadoop cluster. This activity is designed to let students collaborate with peers in the same way as MapReduce and HDFS components collaborate to perform computing jobs in a Hadoop cluster. Utilizing a computer communication channel, the games are designed to let students quickly and effectively understand typical MapReduce and HDFS operations. Survey results from students in two big data classes show that the games effectively improve learning outcome in understanding MapReduce and HDFS workflow and the Hadoop framework in general. Students appear more engaged in class activities and communicate with peers more often.
Number of students got benefited.	55

Number of students involved in the activity.	6
Venue of the Activity	Room No 003B
Schedule of the Event	10/11/21
Whether the work can be Reproduced and Reviewed.	YES

DETAILS OF THE INNOVATIVE TEACHING METHODS USED BY THE FACULTY

Academic Year	2019-20 ODD
Subject Name and Subject Code	Information Management System(15IS753)
Faculty Name	Mrs. SUGUNA M K
Semester	7 th semester
Name of the Innovative Teaching Methods used	Group Task Activity
Short Description of the Innovative Teaching Activity.	<p>Group tasks are activities where a defined group of individuals need to perform a defined task and accomplish the goals assigned to them.</p> <p>A group is basically given a simple task to be completed in some given time and the candidates are expected to solve not only the problems and difficulties related to the given task but also some real life problems like working under pressure, handling a team without having prior knowledge of doing so, coming to a single efficient solution when everyone else in the team have their own ideas.</p> <p>A group task is more alike to judge you on factors like leadership qualities, team spirit, creativity and problem solving ability and many such. Though you think it's a group task but your every move is monitored along with your attitude towards the problem and as well as towards the given situation.</p>
Number of students got benefited.	40

Number of students involved in the activity.	15
