

## **SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY, BANGALORE**

### **REPORT ON HACKATHON “CODEFIESTA”**

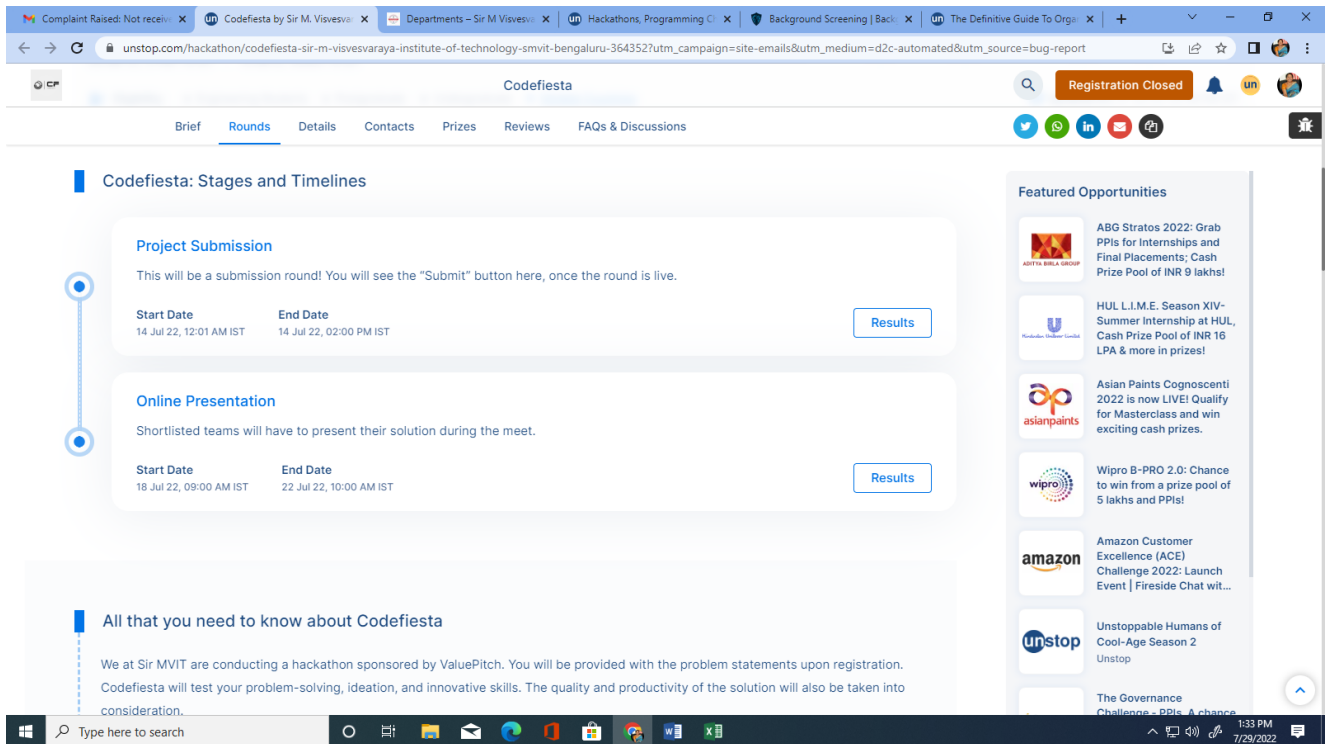

Sir MVIT in Association with Valuepitch e-Technologies conducted a Hackathon “CODEFIESTA”. It was decided to hold the Hackathon online on 16.7.2022.

Valuepitch e-Technologies is a Mumbai based company, with whom the department of Information Science and Engineering holds in MOU. We approached them for sponsorship and the problem definitions and they were kind enough to agree to it. Mr. Sagar Rauthry, CO-Founder of the company coordinated with us. They agreed upon to sponsor Rs 15,000 for the winners and Rs 10000 for the runners-up.

The Hackathon was hosted on Unstop website, a hackathon management platform. Hackathon management platforms helped in easing out the whole process for us. The hackathon management platform helped us with hosting the opportunity, reaching the right audience, promoting the organization, next-generation proctoring for cheat prevention, getting submissions, and real-time leaderboards. In [collaboration with Unstop](#), we could do all of this with ease.

We were overwhelmed with 1,400 registrations and 92,261 views on unstop. The problem definitions were released on 30.6.2022 and the participants were given time till 14.7.2022.

As there were more submissions, the judges took two days to evaluate. They have shortlisted the teams and told them to present the solutions on 18.7.2022.

Two volunteers' details were provided to the participants.

1. Kushagra 9870661438

2. Harshit 9268223521
