ALUMNI SPEAK

I still remember how I was able to get one of the last few seats of CSE in my CET Counselling and was thrilled to do my BE in Sir MVIT. A friend had suggested the college to me and it was the year when MVIT was ranked 2nd in the state for Engineering. The Institute felt like home within the first one week and it just got better with time in the four years I spent here. I have had the privilege to get coached by our then Dean Prof. R. H. Nagabhushan and CSE HOD Prof. Dilip Sen for enormous number of college events for anchoring. I had the privilege of working with so many co-hosts during the four years that I was here hosting multiple events. Verve and Susamskriti were always special with Elocution and Debate being my favourite events. I had the privilege of representing Sir MVIT in many inter-college events including VTU fest. My favourite part of MVIT was its people and the bond we made with the staff, support staff and friends in these four years. Being part of the Alumni Council, I am proud of the exposure that the students of MVIT today have and all the mentorship that is possible due to years of efforts from the Institute and professors. It is always nostalgia to visit the campus and say hello to the professors who taught us. - **Lakshya Sivaramakrishnan**

Those were the best days of my life!! When I entered the portals of this institution, there were a myriad set of emotions that rose and ebbed through my mind.

On one hand, I was excited to join a professional course that I wanted to pursue and on the other side, I was worried if I will be able to fit in. But not only did I find my friends for life, I also found mentors and guides who have shaped the way I think. Teachers and support staff treated us like friends. While in class it was focused discussions, after class hours the teachers transformed into friends who were always there to talk and more importantly listen! Problems in Civil Engg. were made fun by Prasad Sir. I have never seen some one teach engineering drawing as beautifully as Rakesh Sir. His board work was something I was always a big fan of. The flow between fun and knowledge was seamless.

Sir MVIT became the wind below my wings and gave me the confidence to fly. It helped me transition from a quite introvert to confident girl ready to take on the world! The projects we did - both internal and external gave us hands on knowledge, challenged our creative mindset and taught us to work in teams. Sir MVIT also gave me a platform in the form of Susamskriti organizing team, to further enhance myself and realize skills and potential that I never knew I had. Organizing Kalanjali, was a fast-track course in management, lessons from which I still apply every-day in professional and personal life. College life is never complete without the mention of friends. MVIT attracts people from all over the country and I got an opportunity to meet people from all over India and I have had the good fortune to create a lifetime of memories.

I am grateful to this institution for contributing significantly to what I am today and giving me some of the best days of my life!! - **Shweta M Agrawal**
