To whomsoever it may concern

This is to certify that **Dheeraj N Bhat** has completed a full-time internship at IIT Bombay under my guidance from **14/09/2020** to **15/06/2021**. During this period, Dheeraj contributed 30 hours every week.

As a part of the internship, he has worked with us on following projects :

Project-1: OCR Handwritten Form Reader App

He worked on training and improving the Attention OCR model for reading text on forms without any real data that could help in reducing the data labeling and data gathering costs by generating synthetic data as per the requirements. Testing was done on realistic data.

Project-2: CORDS (COResets and Data Subset selection)

He is a part of the Decile Team where he worked on CORDS, an open-source library built on top of Pytorch for making machine learning time, energy, cost, and compute efficient by implementing subset-selection algorithms like CRAIG, GLISTER, GradMatch, Random, submodularSelection and its variants. Training and testing were done for each algorithm on popular image datasets.

He has demonstrated diligence and intellect towards system design, development and experimentation for the projects assigned to him. He has been very helpful and has been appraised by the team. He will be an asset to any team he joins. We take this opportunity to thank him and wish him luck in his future.
