Object: Completion of Internship and Recommendation Letter

To Whom it May Concern:

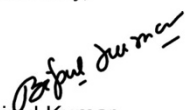

This will confirm that **SUJITH N E** of **Sir M Visvesvaraya Institute of Technology** had worked as Intern with AiCouncil (a subsidiary of Enter Prime Services Pvt. Ltd.) for one and half months during a period from **16th August 2021 to 30th September 2021**. During his tenure of internship, he has displayed a unique ability to identify and solve problems. He has been instrumental in some of our Full stack Web Application Development Program and content creation. His learnings and implementations during the development were phenomenal which made him a valuable asset for us and it can be a great value for a company or institution utilizing his skills. He is quite responsible for the job assigned and always puts the welfare of the organisation above all else.

He was assigned with a job of **"Web app development for online medicine orders and consulting doctors"** using the technology namely python, HTML, JavaScript and Django. He was expected to work on backend as well as frontend development. He did a great job to fulfill the requirement which involves backend and frontend development along with server deployment. He was quite good at guiding other interns too. If available, he can certainly count on re-employment with our firm, should the opportunity arise.

Any company considering this individual for employment or any Institution considering him for admission in higher studies has my most enthusiastic recommendation. If his performance here is an indication, he is destined to achieve new heights in his career.

Please feel free to contact us if you are having any questions about this outstanding young man.

Sincerely,
